The sign features the company name 'ROBSON' in dark grey and 'WORKS' in green. Below the name, a dark grey horizontal bar contains the text 'AIR SPECIALISTS' in white. The building has two large white roll-up doors and a small window above the left door. A black metal frame structure is visible in the foreground, partially obscuring the building. Robert B. Whittingham,2004 The Blame Machine describes how disasters and serious accidents result from recurring but potentially avoidable human errors It shows how such errors are preventable because they result from defective systems within a company From real incidents you will be able to identify common causes of human error and typical system deficiencies that have led to these errors On a larger scale you will be able to see where in the organisational or management systems failure occurred so that you can avoid them The book also describes the existence of a blame culture in many organisations which focuses on individual human error whilst ignoring the system failures that caused it The book shows how this blame culture has in the case of a number of past accidents dominated the accident enquiry process hampering a proper investigation of the underlying causes Suggestions are made about how progress can be made to develop a more open culture in organisations both through better understanding of human error by managers and through increased public awareness of the issues The book brings together documentary evidence from recent major incidents from all around the world and within the Rail Water Aviation Shipping Chemical and Nuclear industries The Autocar ,1978 *Motor Cycling and Motoring* ,1985-04 *Motor* ,1961 The Guardian Index ,2003 *Supplement to the Official Journal of the European Communities* ,1996-07-30 Autocar & Motor ,1992 **Royal Navy Roll of Honour - World War 1, by Date and Ship/Unit** Don Kindell,2009 World War 1 Roll of Honour of Royal Navy Royal Marines and Royal Naval Division men and women lost including Dominions and Empire 1914 18 Listed by Date and Ship Unit Complements the separately issued volume arranged by Name Compiled from original sources including Admiralty Death Ledgers and Admiralty Communiques Foreword by Capt Christopher Page RN Rtd Head Naval Historical Branch of the Naval Staff Downloaded version available from www.naval-history.net is searchable Flight International ,1983 **Flight** ,1952 **Liverpool and Manchester Photographic Journal** ,1963 *Train Tracks* Gayle Letherby,Gillian Reynolds,2020-08-25 This book provides an in depth exploration of trains and train travel Letherby and Reynolds have conducted extensive research with all those concerned with trains from leisure travelers and enthusiasts to railway workers and commuters Overturning conventional wisdom they show that the train has a social life in and of itself and is not simply a way to get from A to B The book also looks at the depiction of train travel through cultural media such as music films books and art The authors consider the personal politics of train travel and political discussion surrounding the railways as well as the relationship trains have to leisure and work The media often paints a gloomy picture of the railways and there is a general view that the romance of train travel ended with the steam locomotive Letherby and Reynolds show that this is far from the case Air Pictorial ,1985 Commercial Aviation ,1952 Who Owns Whom ,2007 *Subject Guide to Books in Print* ,1975 **International Railway Journal** ,2005
