new markets and increased security concerns **Global Airlines** Pat Hanlon, 2006-12-14 Global Airlines Competition in a Transnational Industry presents an overview of the changing scene in air transport covering current issues such as security no frills airlines open skies agreements the outcome of the recent downturn in economic activity and the emergence of transnational airlines and takes a forward looking view of these challenges for the industry Since the publication of the second edition in 1999 major changes have occurred in the industry The rules of the game in air transport are now beginning to change and it is time to take the story forward This third edition contains nine new chapters and tackles the following issues amongst others Security The tragic events of 11 September 2001 followed by the war in Iraq and the resultant heightened tensions over security and passenger safety Financial instability the cyclical downturn in economic activity has led some airlines to the verge of bankruptcy Even some large well established carriers are not immune from this How can the industry look to survive Attaining global reach implications of transborder mergers open skies agreements and the transatlantic Common Aviation area Can full globalisation ever be reached Low cost carriers and e commerce as both increase how much the industry re structure and deal with issues associated with increased passenger traffic and decreased labour requirements Airport capacity Air traffic is estimated to grow at a long term average annual rate of 5 per cent per annum But many airports in many parts of the world are already reaching their capacity limits How can this be overcome and are the environmental implications Using up to date data and case studies from major international airlines such as United Airlines British Airways and Qantas amongst many others Global Airlines provides a comprehensive insight into today's global airline industry **Ticketing and Concessionary Travel on Public Transport** Great Britain. Parliament. House of Commons. Transport Committee, 2008 Ticketing and concessionary travel on public transport is the 5th report from the Transport Committee in 2007-08 session HCP 84 ISBN 9780215514493 It examines the the aim of producing an integrated ticketing system across England with the introduction of smartcard concessionary travel passes The report inquires into the extent to which integrated ticketing on public transport has been achieved for all users the issues regarding smartcards arrangements for revenue protection stopping fare evasion which will be affected by new forms of ticket the impact of concessionary travel in England which is costing 1 billion per annum The Committee has set out a number of recommendations including the Committee believes that the Government in terms of promoting integrated bus ticketing has achieved too little of practical value it recommends that Traffic Commissioners be given powers to arbitrate where bus companies and local transport authorities disagree that coach travel should be given greater consideration in future statements of public transport policy it is imperative that the full range of tickets including multi modal options be available at all main outlets so that the Government's aim of fare simplification can be better achieved see The Future of Rail Cm 6233 ISBN 9780101623322 that the Government needs to ensure suitable guidelines on differential pricing is included in decisions on rail fares and rail franchises with particular reference to smartcards that the Government needs to articulate a clearer

strategy for the development of integrated ticketing in general and smartcards in particular that the Government should move towards a unified system of public transport revenue protection that the Department of Transport should commission an evaluation of the benefits of the national scheme for free local bus travel and that national concessionary travel is properly funded For a related title see How Fair are the Fairs HCP 700 I session 2005 06 ISBN 9780215028853 **Civil**

Transport Committee,2007-07-26 Air travel has expanded hugely and in 2005 228 million passengers travelled through UK airports This title looks at the passenger experience of air travel from purchasing a ticket to boarding the plane including travel to and from the airport check in and security and complaint resolution **European VAT and the Sharing**

Economy Giorgio Beretta,2019-10-24 A breadth of new digital platforms has dramatically expanded the range of possibilities for exchanging anything required by business or personal needs from accommodation to rides In the virtual marketplaces shaped and ruled by these novel matchmakers rather than by a single centralized entity value is created through the granular interaction of many dispersed individuals By allowing instantaneous and smooth interaction among millions of individuals platforms have indeed pushed the digital frontier farther and farther so as to include within it even services once not capable of direct delivery from a remote location such as accommodation and passenger transport Legal disruption is also underway with foundational dichotomous categories such as those between suppliers and customers business and

private spheres employees and self employed no longer viable as organizational legal structures This is the essential background of the first book to relate what is synthetically captured under the umbrella definition of sharing economy to key features at the core of European Value Added Tax EU VAT and to look at the feasibility of a reformed EU VAT system capable of addressing the main challenges posed by these new models of production distribution and consumption of goods and services Specifically the study analyses five legal propositions underpinning the current EU VAT system as the following taxable persons taxable transactions composite supplies place of supply rules and liability regimes for collection and remittance of VAT Exploration of these five legal propositions is meant to assess the practical feasibility of shoehorning the main sharing economy business models notably those available in the accommodation and passenger transport sectors into the framework of existing EU VAT provisions The author further draws on the normative standards of equality neutrality simplicity flexibility and proportionality to test the reflexes of the current EU VAT system in the sharing economy domain Opportunities for reform of the current EU VAT system are in turn evaluated with each chapter including cogent proposals in the form of incremental and targeted amendments to the current EU VAT provisions As the first comprehensive analysis of the treatment of the sharing economy for VAT purposes the book provides not only a theoretical framework for future studies in the tax field but also indispensable practical guidance for VAT specialists confronting daily with the many challenges ushered in by the sharing economy Moreover the various solutions and recommendations advanced in the book offer valuable insights to international and national policymakers dealing with similar issues under other VAT systems *Flight*, 1909
