Prismatic Performances April Sizemore-Barber, 2020-09-28 At his 1994 inauguration South

African president Nelson Mandela announced the Rainbow Nation at peace with itself and the world. This national rainbow notably extended beyond the bounds of racial coexistence and reconciliation to include sexual orientation as a protected category in the Bill of Rights. Yet despite the promise of equality and dignity, the new government's alliance with neoliberal interests and the devastation of the AIDS epidemic left South Africa an increasingly unequal society. *Prismatic Performances* focuses on the queer embodiments that both reveal and animate the gaps between South Africa's self image and its lived realities. It argues that performance has become a key location where contradictions inherent to South Africa's post-apartheid identity are negotiated. The book spans 30 years of cultural production and numerous social locations and includes a team of black lesbian soccer players who reveal and redefine the gendered and sexed limitations of racialized Africanness, white gay performers who use drag and gender subversion to work through questions of racial and societal transformation, black artists across the arts who have developed aesthetics that place on display their audiences' complicity in the problem of sexual violence, and a primarily heterosexual pan-African online soap opera fandom community who, by combining new virtual spaces with old melodramatic tropes, allow for extended deliberation and new paradigms through which African same-sex relationships are acceptable. *Prismatic Performances* contends that when explicitly queer bodies emerge onto public stages, audiences are made intimately aware of their own bodies, identifications, and desires. As the sheen of the New South Africa began to fade, these performances revealed the inadequacy and indeed the violence of the Rainbow Nation as an aspirational metaphor. Simultaneously, they created space for imagining new radical configurations of belonging.

In *Assessing Multiculturalism in Global Comparative Perspective*, a group of leading scholars come together in a multidisciplinary collection to assess multiculturalism through an international comparative perspective. challenges trajectory and possible futures Collectively the chapters provide the basis for a critical assessment of multiculturalism s first 50 years as well as vital insight into whether multiculturalism is best equipped to meet the distinct challenges characterizing this juncture of the 21st century With coverage including the Americas Europe Oceania Africa and Asia and thematic coverage of citizenship religion security gender Black Lives Matter and the post pandemic order Assessing Multiculturalism in Global Comparative Perspective presents a comprehensively global collection that is indispensable reading for scholars and students of diversity in the 21st century **Youth Exclusion and Empowerment in the**
