Paul Schafer,2008-04-29 In Revolution or Renaissance D Paul Schafer subjects two of the most powerful forces in the world economics and culture to a detailed and historically

sensitive analysis He argues that the economic age has produced a great deal of wealth and unleashed tremendous productive power however it is not capable of coming to grips with the problems threatening human and non human life on this planet After tracing the evolution of the economic age from the publication of Adam Smith s *The Wealth of Nations* in 1776 to the present he turns his attention to culture examining it both as a concept and as a reality What emerges is a portrait of the world system of the future where culture is the central focus of development According to Schafer making the transition from an economic age to a cultural age is imperative if global harmony environmental sustainability economic viability and human well being are to be achieved Published in English
