*Teaching Academic Writing in European Higher Education* Lennart Björk, Gerd Bräuer, L. Rienecker, Peter Stray Jørgensen, 2005-12-30 DAVID R RUSSELL English Department of Iowa State University U S A I was fortunate to attend as a visitor from the U S the first European Association for the Teaching of Academic Writing EATAW conference in 2001 at Groningen I was struck by the similarities in the challenges higher education faces on both sides of the Atlantic in terms of developing students academic writing and students learning through writing It is indeed an international problem But I was equally struck by the profound differences in responding to these challenges among nations institutions disciplines and even within disciplines The essays in this extraordinary volume address a growing demand for help with academic writing on the part of students and academic staff alike And they do so in ways that bring fresh approaches not only to Europeans who have

only recently begun to study academic writing but also to researchers and academic staff in the U S where we have a century old tradition of attention to the problem but are much in need of these fresh approaches Academic writing has become a problem in higher education all around the world because higher education sits smack between two contradictory pressures On one end far more students and far more diverse students come streaming into higher education bringing in a far greater diversity of linguistic resources often interpreted as standards are falling as Frank Haacke Tente point out Current Catalog National Library of Medicine (U.S.),1992 Inclusive Education in Bilingual and Plurilingual Programs Mañoso-Pacheco, Lidia,Estrada Chichón, José Luis,Sánchez-Cabrero, Roberto,2024-02-07 Implementing bilingual and plurilingual education programs has ushered in a transformative era for educators worldwide These programs have redefined teaching practices and thrust diversity into the spotlight as a central concern During this paradigm shift the need to cater to diverse students has become paramount particularly in monolingual European contexts where bilingual and plurilingual instruction is often perceived as a formidable challenge especially for learners with special needs Inclusive Education in Bilingual and Plurilingual Programs assembles a compendium of international theoretical and practical contributions shedding light on the intricate interplay between diversity and bilingual or plurilingual education This book delves into the multifaceted realm of attention to diversity in education where the focus is on tailoring teaching methods to the specific needs of students encompassing differences in abilities learning paces and styles which empowers students to acquire essential competencies and attain educational objectives at each stage of their academic journey Secondly it traverses the landscape of bilingual and plurilingual education which has emerged in response to the societal employment and economic demands for language proficiency beyond one s mother tongue This book is essential reading for many educational stakeholders engaged in bilingual or plurilingual education Teachers at every educational level along with teacher trainers at tertiary institutions will find valuable insights for tailoring their pedagogical approaches to the unique needs of their students

*The Nordic Education Model in Context* Daniel Tröhler,Bernadette Hörmann,Sverre Tveit,Inga Bostad,2022-08-15 Tracing historical and cultural factors which gave rise to the Nordic Education Model this volume explores why Northern European education policy has become an international benchmark for schooling The text explains the historical connection between a Nordic ideal of democracy and schooling and indicates how values of equality welfare justice and individualism might be successfully integrated in national school systems and curricula around the world The volume also highlights recent debates around the longevity of the Nordic model and explores the risks and challenges posed by international policy and assessment agendas Exploring how Nordic education policies successfully merge social equity with academic excellence the book combines cultural historical sociological and philosophical analysis with a deep exploration of curriculum and teaching This book will be of great interest to researchers scholars and postgraduates working across the fields of curriculum comparative education cultural studies and history and philosophy of education and education policy The Open Access
