Preston, Duane Windsor, 2013-11-11 This study has been long in the making and the world has changed dramatically while we have been at work We initially anticipated a substantial section on the Soviet dominated Council for Mutual Economic Assistance CMEA or COMECON which offered an interesting contrast to the kind of international business regime typically found among market oriented countries and industries As we moved toward publication the CMEA vanished and so we mention it only in passing The USSR subsequently disintegrated into a Commonwealth of Independent States CIS On the other hand we began with the assumption that the historic rule of capture no longer played a significant role in international economic relations The seizure of Kuwait's territory and wealth by the government of Iraq suggests that this assumption was heavily influenced by wishful thinking Even though this seizure has been reversed by military action the experience remains a challenge to generally held beliefs about the strength of order versus chaos in contemporary international affairs Some readers of this volume have suggested that it gives insufficient attention to the fact that many of the important business and economic regimes of the postwar period are currently under significant pressure perhaps even in danger of collapse We acknowledge that there are many evidences of strain in for example the free trade and money exchange regimes and in many areas of environmental protection **1° Manual for the Team Coach** Marco Lagana', 2024-04-03 This Manual is for those who wish to acquire manage and value the talents of team leaders and team members Those who work in or for a team want to make it work This document is for anyone committed to the team who wants to contribute and add value to their daily work Particularly for managers leaders coaches mentors and those working in Human Resources For those who believe that the human capital of a team is worth much more than individuals and their cost if the team works For those who use or want to use the Team CARE Assessment How do we make the team work well You need to take care of it That's why Team CARE No people are talents in themselves but each has talents and skills to make available or at the service of others It's about discovering them inspiring them giving them the proper role and valuing them in the team to win together Let's find out how If you have a problem at work you may not need to change the people you work with It would help if you changed how you see them motivate them manage them and value them If you have
