**General French and English Dictionary** Alexandre Spiers,1849 Life M. Kronegger,Anna-Teresa

Tymieniecka,2012-12-06 In her Introduction Tymieniecka states the core theme of the present book sharply Is culture an excess of nature s prodigious expansiveness an excess which might turn out to be dangerous for nature itself if it goes too far or is culture a natural congenial prolongation of nature life If the latter then culture is assimilated into nature and thus would lose its claim to autonomy its criteria would be superseded by those of nature alone Of course nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness on which view human being caught in its own transcendence becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism Excess therefore or prolongation And on what terms The relationship between culture and nature in its technical phase demands a new elucidation Here this is pursued by excavating the root significance of the multiple rationalities of life In contrast to Husserl who differentiated living types according to their degree of participation in the world the phenomenology of life disentangles living types from within the onto-poietic web of life itself The human creative act reveals itself as the Great Divide of the Logos of Life a divide that does not separate but harmonizes thus dispelling both naturalistic and spiritualistic reductionism      **General English and French Dictionary** Alexander Spiers,1849      *Anecdota Oxoniensia* ,1885      Transcendentalism Overturned Anna-Teresa Tymieniecka,2011-04-02 This collection offers a critical assessment of transcendentalism the understanding of consciousness absolutized as a system of a priori laws of the mind that was advanced by Kant and Husserl As these studies show transcendentalism critically informed 20th Century phenomenological investigation into such issues as temporality historicity imagination objectivity and subjectivity freedom ethical judgment work praxis Advances in science have now provoked a questioning of the absolute prerogatives of consciousness Transcendentalism is challenged by empirical reductionism And recognition of the role the celestial sphere plays in life on planet earth suggests that a radical shift of philosophy s center of gravity be made away from absolute consciousness and toward the transcendental forces at play in the architectonics of the cosmos      **Studia Phaenomenologica XI / 2011** Christian Ferencz-Flatz,2011-01-01      *Lives of Saints, from the Book of Lismore* Whitley Stokes,1890      A Dictionary of Foreign Phrases and Classical Quotations, Comprising Idioms, Proverbs, Maxims, Mottoes, Technical Words and Terms, Press Allusions... from the Latin, Greek, French, German, Italian, Spanish and Portuguese... with English Translations & Equivalents, Ed. with Notes Hugh Percy Jones,1908      **Dictionary of Louisiana French** Albert Valdman,Kevin J. Rottet,2010 The Dictionary of Louisiana French DLF provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present This dictionary describes the current usage of French speaking peoples in the five broad regions of South Louisiana the coastal marshes the banks of the Mississippi River the central area the north and the western prairie Data were collected during interviews from at least five persons in each of twenty four areas in these regions In addition to the data collected from fieldwork the dictionary contains material compiled from existing lexical inventories from texts published after 1930 and from archival recordings The new

authoritative resource the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry Entries include the word in the conventional French spelling the pronunciation including attested variants the part of speech classification the English equivalent and the word's use in common phrases The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled An English to Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane
