Behavioral Science & Policy: Volume 2, Issue 1 Craig Fox, Sim B. Sitkin, 2016-11-22

The success of nearly all public and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research However policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages of this new journal will become a meeting ground a place where scientists and non scientists can encounter clearly described behavioral research that can be put into action By design the scope of BSP is broad with topics spanning health care financial decisionmaking energy and the

environment education and culture justice and ethics and work place practices Contributions will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision science and marketing The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does not advance a particular agenda or political perspective The first issue's contents follow Behavioral Science Policy vol 2 no 1 Table of Contents Editors Note Spotlight Pre Kindergarten Interventions American Policy on Early Childhood Education Development Many Programs Great Hopes Modest Prospects Ron Haskins Evidence for the Benefits of State Prekindergarten Programs Myth Misrepresentation Dale C Farran Mark W Lipsey Reforming Head Start for the 21st Century A Policy Prescription Sara Mead Ashley LiBetti Mitchel Home Visiting Programs Four Evidence Based Lessons for Policymakers Cynthia Osborne Launching Preschool 2.0 A Road Map to High Quality Public Programs at Scale Christina Weiland A 10 Year Strategy of Increased Coordination Comprehensive Investments in Early Child Development Ajay Chaudry Jane Waldfogel Reimagining Accountability in K 12 Education Brian P Gill Jennifer S Lerner Paul Meosky Featured Topic Healthy Through Habit Interventions for Initiating Maintaining Health Behavioral Change Wendy Wood David Neal Making the Truth Stick the Myths Fade Lessons from Cognitive Psychology Norbert Schwarz Eryn Newman William Leach Editorial Policy **Life** Elvis C. Foster, 2021-11-23 This book to some extent is perhaps a strange cocktail a book about life observations written by a computer scientist occasionally pulling from philosophy and often drawing from Scriptures The observations included in this small volume are attempts by the author to understand this very complex thing called life It includes his observations about people the world and life In sharing this work with the public it is the author's hope that the reader will travel with him through the various topics included to the discovery that there is more to life than just the mundane activities of survival that we often get obsessed with The book consists of thirty one short topics touching on issues such as love decision making human tendencies race relations life as a teacher family and society friendship good versus evil truth versus falsehood psychological prisons stewardship knowledge and enlightenment human communication test of character and love The book begins and ends with a focus on the very pertinent and important issue of love The intent and objective of the author is to inspire additional thought reflection and in some cases research on the topics covered It is also hoped that as readers contemplate the various topics discussed they will find their points of equilibrium on these issues Randomistas Andrew Leigh, 2018-07-24 A fascinating account of how radical researchers have used experiments to overturn conventional wisdom and shaped life as we know it Experiments have consistently been used in the hard sciences but in recent decades social scientists have adopted the practice Randomized trials have been used to design policies to increase educational attainment lower crime rates elevate employment rates and improve living standards among the poor This book tells the stories of

radical researchers who have used experiments to overturn conventional wisdom From finding the cure for scurvy to discovering what policies really improve literacy rates Leigh shows how randomistas have shaped life as we know it Written in a Gladwell esque style this book provides a fascinating account of key randomized control trial studies from across the globe and the challenges that randomistas have faced in getting their studies accepted and their findings implemented In telling these stories Leigh draws out key lessons learned and shows the most effective way to conduct these trials
