Constraints on EU Member States in Drafting Accession Agreements Narin Idriz,2022-06-22 Do Member States of the EU have a free hand in drafting Accession Treaties or are there legal constraints on their primary law making powers in this regard That is the main question this book addresses It argues that such constraints do exist and seeks to identify them thereby providing a number of insights into the nature of the EU s legal order The point of departure as well as the main focus of the study is the proposed permanent safeguard clause PSC on the free movement of persons in the Negotiating Framework for Turkey Legal provisions rules principles and norms that might constrain Member States in this regard are identified with reference to the PSC The book examines constraints on Member States stemming from three sources of EU law Association Law based on the existing legal framework built on the EEC Turkey Association Agreement Part I EU Enlargement Law comprised of past practice and existing EU rules on enlargement Part II and the foundations of EU Constitutional Law Part III which constrain Member States whenever they act within the scope of Union law both as primary and secondary lawmakers Part III reveals what the Court of Justice of the EU considers to be the essence or the very foundations of the Union s legal order which it protects against encroachment This is similar to what some constitutional courts do to protect the inner unity or basic structure of their constitutions The findings of this book can be applied to the accession of any candidate state It also sheds light on important implications for future treaty amendments and for identifying possible limits to differentiated integration **Resources in Education** ,1999-04 **Equalities and**

Education in Europe Melinda Dooly,Nanny Hartsmar,Alistair Ross,2012-01-17 This book is about inequities in education in Europe The authors have worked together on an analysis of educational inequalities in Europe which they draw on through the book they suggest that the countries of Europe through the European Union are beginning to address issues of educational disadvantage on a systematic continent wide basis Because of this policy concern this book is timely in the way that it addresses social and education inequities on the scale of Europe This is not simply an account of practices and policies

The authors analysis of individual country and European Union policy documents will be of practical and theoretical use to the policy community and the community of practitioners who are concerned with inequities in society and in education in particular The authors want to do more than simply add to the literature and theory they aspire to make an impact on how education can contribute to positively improving the lives of disadvantaged groups While some suggest that education is doomed to simply reproduce existing social patterns and replicate social inequities the authors believe that educational policies have the potential to challenge inequalities and to transform lives **National Lumber Bulletin** ,1928

Restoring Opportunity Greg J. Duncan,Richard J. Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained

effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation
