European Yearbook of Constitutional Law 2019 Ernst Hirsch Ballin, Gerhard van der Schyff, Maarten Stremmer, 2019-12-02 The European Yearbook of Constitutional Law EYCL is an annual publication initiated by the Department of Public Law and Governance at Tilburg University and devoted to the study of constitutional law It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond This inaugural volume examines the safeguards and limits of judicial power in a variety of constitutional systems both at the national and supranational level The book approaches the judiciary as part of the constitutional system operating within a legal order that connects the citizens and institutions of the state to each other Looking at the judiciary from this broader perspective the traditional doctrine of the separation of powers would appear no longer to adequately represent the diversity and complexity of constitutional systems and their democratic legitimacy Judicial independence does not mean isolation but should better be understood as institutionalizing relationships that legitimize the power of the courts The notions of safeguards and limits indicate the reciprocally enabling and protecting nature of these relationships In recognition of this the contributions to this volume analyse these safeguards and limits as relations existing within a complex constitutional architecture State institutions today are involved in a fundamental transformation of their selfunderstanding as a result of changes in political culture Several contributions to this volume provide examples of political criticism and pressure on the judiciary against which the usual guarantees are unable to provide adequate protection A convincing and effective response to threats to the judiciary's independence requires a detailed and precise analysis of the judiciary's constitutional safeguards and limits This book offers a step in that direction

Tao Of Innovation, The: Nine Questions Every Innovator Must Answer Hsien-yeang Seow, Toyofuku Sue-tze Tan, Teng-kee Tan, 2014-11-03 The Tao of Innovation is the first book to blend Eastern philosophy with tried and true innovation strategies It presents a holistic intuitive and practical approach to developing game changing innovation Having over 30 years of real world global corporate entrepreneurial and consulting experience and more than 10 years of teaching innovation and entrepreneurship to thousands of students in the East and West the authors have distilled the most influential thinking on innovation into a holistic set of nine key innovation questions that every innovator must answer throughout the innovation cycle These provocations apply to any business or organization and illuminate fundamental principles and practices of successful innovation The Tao of

Innovation's use of nature's fundamental elements and the yin yang's balance of opposing forces as metaphors provide simple ways to navigate the complexities of business and innovation. They blend art, science, and Eastern and Western philosophies of what it takes to be an innovator. This book is written for individuals who have a passion for initiating change but struggle to find a process or methodology that helps them translate their dream into practical action steps that will get them through implementation. It aims to help organizations of all types proactively stay ahead in a rapidly changing world and change the world for the better. In short, this book is a fresh East meets West approach to innovation, helping readers develop a strategy to implement real change and ultimately achieve their innovation dream. *Federal Register*, 1991-03
