Cummings, 2014-01-02 *The Shifting Global Economic*

Architecture Jonathan Luckhurst, 2017-10-05 This book analyzes the shifting global economic architecture indicating the decentralizing authority in global economic governance since the Cold War and especially following the 2008-09 global financial crisis. The author examines recent adjustments to the organizational framework, contestation of policy principles, norms and practices, and destabilizing actor hierarchies particularly in global macroeconomic trade and development governance. The study's analytical eclecticism includes a core constructivist IR approach but also incorporates insights from several international relations theories as well as political and economic theory. The book develops a unique analytical matrix which analyzes effects of strategic political and cognitive authority in the organizational policy and actor contexts of the global economic architecture. It concludes that despite concerns about potential fragmentation, decentralizing authority has increased the integration of leading developing states and new actors in contemporary global economic governance.

Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2015-07-28 *Mergers, Acquisitions, and Other Restructuring Activities* is unique in that it is the most current comprehensive and cutting edge text on M&A and corporate restructuring available. It is current in that it includes many of the most up to date and notable deals, e.g., Facebook's takeover of WhatsApp, the Dell privatization, and Verizon's mega buyout of Vodafone's share of Verizon Wireless, precedent setting judicial decisions, e.g., efforts to overturn defenses at Airgas and Sotheby's new regulations, e.g., expediting backend mergers, trends, e.g., increasing role of activist investors in takeovers, and new tactics, e.g., two-tiered poison pill, employed in M&As. Most integrative case studies are new for this edition and involve transactions that have been announced or completed since 2013. It is comprehensive in that nearly all aspects of M&As and corporate restructuring are explored. It is cutting edge in that conclusions and insights are anchored by the most recent academic research with references to more than 200 empirical studies published in leading peer-reviewed journals just since 2012. And the substantially updated content is illustrated with numerous practical exhibits, case studies involving diverse transactions, easy to understand numerical examples, and hundreds of discussion questions and practice exercises. The highlights of the new edition are listed here.

New Chapters Two new chapters, Chapter 9 and 14. Chapter 9 discusses the basics of applying financial modeling methods to firm valuation and assists the reader in understanding the power and limitations of models in analyzing real-world situations. Chapter 14 illustrates how complex financial models often are used to support the deal structuring process during M&A negotiations.

New Cases Ninety percent of the nearly forty case studies are new and involve transactions announced or completed during the last three years. These cases represent friendly, hostile, highly leveraged, and cross-border deals in ten different industries involving public and private firms as well as firms experiencing financial distress.

All end-of-chapter case studies begin with a Key Objectives section indicating what the student should learn from the case study and include discussion questions and solutions available in the online instructors' manual.

Edible Gardens of Ethiopia Valentina Peveri, 2020-11-10 What is a beautiful garden to southern Ethiopian farmers Anchored in the author's perceptual approach to the people plants land and food *The Edible Gardens of Ethiopia* opens a window into the simple beauty and ecological vitality of an ensete garden The ensete plant is only one among the many unloved crops that are marginalized and pushed close to disappearance by the advance of farming modernization and monocultural thinking And yet its human companions caught in a symbiotic and sensuous dialogue with the plant still relate to each exemplar as having

individual appearance sensibility charisma and taste as an epiphany of beauty and prosperity and even believe that the plant can feel pain Here a different story is recounted of these human plant communities one of reciprocal love at times practiced in an act of secrecy The plot unfolds from the subversive and tasteful dimensions of gardening for subsistence and cooking in the garden of ensete through reflections on the cultural and edible dimensions of biodiversity to embrace hunger and beauty as absorbing aesthetic experiences in small scale agriculture Through this story the reader will enter the material and spiritual world of ensete and contemplate it as a modest yet inspiring example of hope in rapidly deteriorating landscapes Based on prolonged engagement with this virtuous plant of southwestern Ethiopia this book provides a nuanced reading of the ensete ventricosum avant garden and explores how the life in tiny diverse and womanly plots offers alternative visions of nature food policy and conservation efforts
