

Calibration

Your AccuGreen, 2000, spreader was calibrated at the factory. You may want the calibration to follow:

1. Adjust the micrometer setting to 4.
2. Squares the trigger against the handle.
3. The front edge of the chute bar should be aligned with the 4 direction line and with the bottom of the trigger.
4. To adjust alignment, use a small screwdriver on the flat 1 adjustment screw at the lower end of the control arm leading from the micrometer mount.

Spend a few minutes on maintenance after each use

1. Never use a stick or pin in the spreader. Your release material lock into the package and seal the package tightly.
2. After each use, wash thoroughly to remove all residue clinging to the spreader. All water may be required at times to remove stubborn residue. Allow the spreader to dry thoroughly on the sun.

3. Store your spreader in a clean dry place.

NOTE: The unit does not require lubrication.
