Preface

Dear Teacher, Welcome to the new STAR SCIENCE program! This preface provides an overview of the program and its features. The following pages provide more detailed information about the program.

STAR SCIENCE is a science program designed to support the Ontario Curriculum. It is organized around the concepts of environmental science, which include the study of living things, the environment, and the relationship between them.

The program includes a variety of activities, such as experiments, projects, and research, to help students learn about the world around them. It also includes a variety of resources, such as photographs, diagrams, and maps, to help students understand the concepts being taught.

STAR SCIENCE is designed to be used in conjunction with other curriculum areas, such as social studies, language arts, and mathematics. It can also be used as a stand-alone program.
