Practical Work in School Science Jerry Wellington, 2002-01-22 Practical work has been part of science education for just over 100 years and is accepted as an essential and exciting part of understanding this discipline Although it can be costly and sometimes messy it simply has to be done if students and teachers are to progress in their understanding Schools and universities invest millions of pounds in it and the National Curriculum reveres it but what exactly is going on in classrooms around the country and how are the leading practitioners moving with the times This book attempts to reflect on the value and purpose of practical work as part of the scientific curriculum Why are practical exercises so necessary and what do they contribute to the learning process The chapters examine many issues such as how practical work is perceived by students and teachers whether we will move on to the virtual lab the limitations of current hands on work and valuable alternatives to it the connections between practical work in science education and authentic science what role experimentation plays in current educational practice Jerry Wellington is Reader in Education at Sheffield University and has taught science at all academic levels

Air, Earth, Fire, and Water David Elliott, 2025-07-17 We celebrate distinctive attributes of Creation its orderly structure measurable processes using an elementary analysis of the precision of Earth's systems Scriptural principle and scientific knowledge are compared at an uncomplicated level to guide the learner to greater knowledge of the Creator The character of God is seen in the Air the heavens and atmosphere the Earth the geosphere Fire energy and Water the hydrosphere A fifth element Ether proclaims the grace of nature evidence of God's providence and Earth's resilience The five elements borrowed from Greek philosophy track the divinely ordered Creation account These spheres work in tandem to collectively sustain life on Earth converging at the soil from which God made living beings the biosphere notably humans We survey these domains review man's connection and their interdependence and guide the reader to see that the visible Creation was placed before us to help us perceive the invisible Kingdom of God we call this the Romans 1:20 Principle His
