SWARGIARY, 2025-05-13
As the author of *Introduction to Education Minor Course Paper Code EDNMIN 101 4*, I am delighted to present this textbook meticulously crafted for students embarking on their B A 1st Semester journey at Bodoland University. In an era where education is recognized not merely as the transmission of knowledge but as a transformative force, this book serves as a foundational guide to understanding its intrinsic nature, pervasive functions, and profound impact. My primary objective in authoring this text was to align seamlessly with the course objectives to cultivate a deep understanding of the meaning, aims, objectives, and functions of education, to acquaint learners with the pivotal role of schools within society, and to illuminate various aspects of curriculum, the correlation of studies, and different forms of discipline. Through sixty carefully structured lectures designed to facilitate a comprehensive grasp of the subject, this book endeavours to empower students with the basic aims and fundamental concepts of education, enabling them to apply theoretical knowledge to real-world educational scenarios and develop critical thinking skills essential for evaluating educational policies, practices, and research. It is my sincere hope that this volume will not only serve as a robust academic resource but also ignite a passion for lifelong learning and contribute to the development of enlightened citizens capable of contributing meaningfully to both national progress and international harmony.
