No Boston Olympics Chris Dempsey, Andrew Zimbalist, 2017-05-02 In 2013 and 2014 some of Massachusetts wealthiest and most powerful individuals hatched an audacious plan to bring the 2024 Summer Olympics to Boston Like their counterparts in cities around the world Boston's Olympic boosters promised political leaders taxpayers and the media that the Games would deliver incalculable benefits and require little financial support from the public Yet these advocates refused to share the details of their bid and only grudgingly admitted when pressed that their plan called for billions of dollars in construction of unneeded venues To win the bid the public would have to guarantee taxpayer funds to cover cost overruns which have plagued all modern Olympic Games The United States Olympic Committee USOC chose Boston 2024's bid over that of other American cities in January 2015 and for a time it seemed inevitable that the International Olympic Committee IOC would award the Games to Boston 2024 No Boston Olympics is the story of how an ad hoc underfunded group of diverse and engaged citizens joined together to challenge and ultimately derail Boston's boosters the USOC and the IOC Chris Dempsey was cochair of No Boston Olympics the group that first voiced skepticism demanded accountability and catalyzed dissent Andrew Zimbalist is a world expert on the economics of sports and the leading researcher on the hidden costs of hosting mega events such as the Olympics and the World Cup Together they tell Boston's

story while providing a blueprint for citizens who seek to challenge costly wasteful disruptive and risky Olympic bids in their own cities

Unmasking the Klansman Dan T. Carter, 2023-04-15 *Unmasking the Klansman* may read like a work of fiction but is actually a biography of Asa Carter one of the South's most notorious white supremacists and secret Klansman. During the 1950s the North Alabama political firebrand became known across the region for his right wing radio broadcasts and leadership in the white Citizens Council movement. Combining racism and thinly concealed anti-Semitism he created a secret Klan strike force that engaged in a series of brutal assaults including an attack on jazz singer Nat King Cole as well as militant civil rights activists. Exploring his life during these years offers new insights into the legal maneuvers as well as the violence used by white Southern segregationists to derail the civil rights movement in the region. In the early 1960s Carter became a secret adviser to George Wallace and wrote the Alabama governor's infamous 1963 inauguration speech vowing segregation now segregation tomorrow segregation forever. When Carter disappeared from Alabama in 1972 few knew that he had assumed a new identity in Abilene Texas masquerading as a Cherokee American novelist. Using the name Forrest Carter he published three successful Western novels including *The Rebel Outlaw Josey Wales* which Clint Eastwood made into a widely acclaimed 1976 movie. His last book *The Education of Little Tree* a fake biography of his supposed Indian childhood posthumously became a number one best seller in 1991. Author Dan T. Carter uncovered Forrest Carter's true identity while researching his biography of George Wallace and in a *New York Times* op ed he exposed Carter's deception. Although the difficulties of uncovering the full story of the secretive Carter initially led him to abandon the project in 2018 he gained access to more than two hundred interviews by the late Anniston newsman Fred Burger. These recordings and his two decades of exhaustive research finally brought Asa Carter's story into focus. *Unmasking the Klansman* is the result.

Innovation, Startups and Intellectual Property Management Ignacio De Leon, Jose Fernandez Donoso, 2017-05-17 This book identifies the potential of intellectual property as a competitive asset for Latin American firms. The authors employ a cognitive approach that involves identifying why small firms are reluctant to register patents resorting rather to alternative IP competitive strategies. This in turn results in the undercapitalization of intellectual assets thus creating hurdles for the

development of capital venture markets Using new data gathered from highly innovative SMEs in Latin America and the Caribbean the authors bring a fresh cognitive approach towards understanding the institutional role of intellectual property and outline various new policy recommendations
