Scope Scholastic February 2015:

Star Observer Magazine February 2015 Elias Jahshan, 2015-01-14 **Trouble Every Day** Kate Robertson, 2021-06-15 Transgressive both in its narrative and in its filmmaking Trouble Every Day 2001 envisions the monster inside unspeakable urges and an overwhelming need for complete incorporation A plant discovered in the South American jungle produces in its test subjects a terrible unnatural and uncontrollable hunger Vicious all consuming desire begets excessive violence and a turn to cannibalism which situates Trouble Every Day into a tradition of challenging cinema a film maudit that pushes the boundaries of what can be shown on screen But while it is certainly an unflinching film it is deserving of reassessment as part of Clare Denis filmography as well as a broader cinematic lineage Focusing on close textual analysis this book delves into the surfeit of visual literary and non fiction references that shape Trouble Every Day while thwarting attempts to firmly situate it It considers its place in a lineage of films that push the boundary of taste and representation aligned as much with Un Chien and alou 1929 as the New French Extremity It also considers the film's relationship to such sub genres as classic monster movies video nasties mad science gothic vampire body horror and Italo exploitation cannibal films and directors such as Abel Ferrara Brian de Palma Jean Renoir and Jacques Tourneau Drawing on a range of disciplines including art philosophy and phenomenology this study explores how Trouble Every Day elicits a visceral response to a cinematic experience that beguiles and violates Technology and the Making of Experimental Film Culture John Powers, 2023 The Bolex camera 16mm reversal film stocks commercial film laboratories and low budget optical printers were the small gauge media technologies that provided the infrastructure for experimental filmmaking at the height of its cultural impact Technology and the Making of Experimental Film Culture examines how the avant garde embraced these material resources and invested them with meanings and values adjacent to those of semiprofessional film culture By reasserting the physicality of the body in making time lapse and kinesthetic sequences with the Bolex filmmakers conversed with other art forms and integrated broader spheres of humanistic and scientific inquiry into their artistic process Drawing from the photographic qualities of stocks such as Tri X and Kodachrome they discovered pliant metaphors that allowed them to connect their artistic practice to metaphysics spiritualism and Hollywood excess By framing film labs as mystical or adversarial they cultivated an oppositionality that valorized control over the artistic process And by using the optical printer as a tool for excavating latent meaning out of found footage they posited the reworking of images as fundamental to the exploration of personal and cultural identity Providing a wealth of new detail about the making of canonized avant garde classics by such luminaries as Carolee Schneemann Jack Smith and Stan Brakhage as well as rediscovering works from overlooked artists such as Chick Strand Amy Halpern and Gunvor Nelson Technology and the Making of Experimental Film Culture uses technology as a lens for examining the process of making where ideas come from how they are put into practice and how arguments about those ideas foster cultural and artistic commitments and communities **Andy Varipapa** Glenn Gerstner, 2024-04-19 Born in Italy

in 1891 Andy Varipapa immigrated to the United States in 1903 uneducated and unable to speak English Equipped with little more than athletic ability the will to succeed and a healthy dose of self confidence he became bowling s first superstar In the 1940s and 1950s Varipapa was the world's most famous bowler For more than 50 years he dazzled fans with an array of never before seen trick shots in person on movie screens and on television Varipapa was not only a performer but one of the greatest bowlers ever He won the prestigious BPAA All Star tournament in 1946 silencing critics who claimed he was just an entertainer And he did so at age 55 long past most bowlers retirement age To prove it was no fluke he repeated in 1947 Bowling fans recognized the outspoken and brash Great Varipapa who once said I m the most skillful talkative and controversial bowler who ever lived Few knew Andy the kind and loyal family man and friend Sourced from interviews with family and friends and more than 1 000 secondary sources this first ever biography of Varipapa tells the personal story of bowling s greatest showman and one of its most influential figures Air Force Magazine ,2016 Experiencing Food, Designing Dialogues Ricardo Bonacho, Alcinda de Sousa, Cláudia Viegas, João Martins, Maria Pires, Sara Estêvão, 2018-08-06 FOOD and interdisciplinary research are the central focus of the 1st International Conference on Food Design and Food Studies Experiencing Food Designing Dialogues reflecting upon approaches evidencing how interdisciplinarity is not limited to the design of objects or services but seeks awareness towards new lifestyles and innovative ways of dealing with food This book encompasses a wide range of perspectives on the state of the art and research in the fields of Food and Design making a significant contribution to further development of these fields Accordingly it covers a broad variety of topics from Designing for with Food Educating People on Food Experiencing Food and other Food for Thought **Screening China's** Soft Power Paola Voci, Luo Hui, 2017-10-02 Promoting China's cultural soft power by disseminating modern Chinese values is one of the policies of President Xi Jinping Although it is usually understood as a top down initiative implemented willingly or unwillingly by writers filmmakers artists and so on and often manifesting itself in clumsy and awkward ways for example the concept of the Chinese dream intended to rival and perhaps appeal more strongly than the American dream modern Chinese values are in fact put forward in many ways by many different cultural actors Through analyses of film festivals CCTV Confucius Institutes auteurs blockbusters reality TV and online digital cultures this book exposes the limitations of China's officially promoted soft power in both conception and practice and proposes a pluralistic approach to understanding Chinese soft power in local regional and transnational contexts As such the book demonstrates the limitations of existing theories of soft power and argues that the US derived concept of soft power can benefit from being examined from a China perspective
