Bonner,2013-06-03 Written by the president of the nation s number one zoo Sailing with Noah is an intensely personal behind the scenes look at modern zoos Jeffrey P Bonner who was trained as an anthropologist and came to the zoo world quite by accident shares some of the most compelling stories ever told about contemporary zoos The stories jump between zoos in different cities and between countries on different continents Some are fun and funny Others are sad even tragic Pete Hoskins the director of the Philadelphia Zoo is in bed sound asleep when his phone rings There s been a fire in the World of Primates he is told You ve got to get over here Whatever he has been dreaming it is nothing like the nightmare he will find now that he is awake They

re all gone They re all gone All of the animals in the building the gorillas the lemurs the orangutans and the gibbons all twenty three of them are dead Written in a lively accessible style Sailing with Noah explores the role of zoos in today s society and their future as institutions of education conservation and research Along the way Bonner relates a variety of true stories about animals and those who care for them or abuse them offering his perspective on heavily publicized incidents and describing less well known events with compassion and humor in turn By bringing the stories of the animals lives before us Bonner gives them a voice He strongly believes that zoos must act for living things and he argues that conservation is a shared responsibility of all mankind This book helps us to understand why biodiversity is important and what it means to be a steward of life on earth From the day to day aspects of caring for some of the world s most exotic creatures to the role of zoos as field conservation organizations saving wild things in wild places this book takes the reader on an incredible journey a journey that begins within the zoo and continues around the globe Everyone from zoo visitors to animal lovers to professional conservationists the young and old alike will be fascinated by this extraordinary book

Industrial Arts Index,1927 Radioactive Waste Management ,1995-04 The Machine Has a Soul Katy Hull,2025-06-17 A historical look at the American fascination with Italian fascism during the interwar period In the interwar years the United States grappled with economic volatility and Americans expressed anxieties about a decline in moral values the erosion of families and communities and the decay of democracy These issues prompted a profound ambivalence toward modernity leading some individuals to turn to Italian fascism as a possible solution for the problems facing the country The Machine Has a Soul delves into why Americans of all stripes sympathized with Italian fascism and shows that fascism s appeal rested in the image of Mussolini s regime as the machine which will run and has a soul a seemingly efficient and technologically advanced system that upheld tradition religion and family Katy Hull focuses on four prominent American sympathizers Richard Washburn Child a conservative diplomat and Republican operative Anne O Hare McCormick a distinguished New York Times journalist Generoso Pope an Italian American publisher and Democratic political broker and Herbert Wallace Schneider a Columbia University professor of moral philosophy In fascism s violent squads they saw youthful glamour and impeccable manners in the megalomaniacal Mussolini they perceived someone both current and old fashioned and in the corporate state they witnessed a politics that could revive addled minds They argued that with the right course of action the United States could use fascism to take the best from modernity while withstanding its harmful effects Investigating the motivations of American fascist sympathizers The Machine Has a Soul offers provocative lessons about authoritarianism s appeal during times of intense cultural social and economic strain
