 historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that

 and other international agreements have functioned in modern warfare Written by an expert on international politics and law
 Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to understand resource that
 explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how
 culture rules about war and the nature of war intersect The first volume addresses the history and development of the
 normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay
 particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass
 slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were

largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs Catalogs of Courses University of California,
