

Growth of Western Democracies: Section 1

Progress Monitoring Transparency

Use the excerpt to answer the following questions.

By 1830, Whigs and Tories were battling over a bill to reform Parliament. The Whig Party largely represented middle-class and business interests. The Tory Party spoke for nobles, landowners, and others whose interests and income were rooted in agriculture.

Parliament finally passed the Great Reform Act in 1832. It redistributed seats in the House of Commons, giving representation to large towns and cities and eliminating rotten boroughs. It also enlarged the electorate, the body of people allowed to vote, by granting suffrage to more men. The Act did, however, keep a property requirement for voting.

The Reform Act of 1832 did not bring full democracy, but it did give a greater political voice to middle-class men. Landowning nobles, however, remained a powerful force in the government and in the economy.

Defense Institutions Thomas-Durell Young, 2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region s politics and policies he documents the status of reform of these armed forces and the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region

Imperialism and the Corruption of Democracies Herman Lebovics, 2006 In this important volume Herman Lebovics a preeminent cultural historian of France develops a historical argument with striking contemporary relevance empire abroad inevitably undermines democracy at home These essays which Lebovics wrote over the past decade demonstrate the impressive intellectual range of his work Focusing primarily on France and to a lesser extent on the United Kingdom he shows how empire and its repercussions have pervaded and corroded Western cultural intellectual and social life from the mid nineteenth century to the present Some essays explore why modern Western democratic societies needed colonialism Among these is an examination of the seventeenth century philosopher John Locke s prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire In other essays Lebovics considers the relation between overseas rule and domestic life Discussing George Orwell s tale *Shooting an Elephant* and the careers of two colonial officers one British and one French he contemplates the ruinous authoritarianism that develops among the administrators of empire Lebovics considers Pierre Bourdieu s thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects Turning to the arts Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West *Imperialism and the Corruption of Democracies* is a compelling case for cultural history as a key tool for understanding the injurious effects of imperialism and its present day manifestations within globalization **Belford's Monthly and**

Since the 2016 upsurge in enthusiasm for electoral organizing and party building the terrain has shifted It was not so long ago that a new wave of democratic socialist organizing exploded onto the scene Quickly the defeat of candidates such as Bernie Sanders and Jeremy Corbyn had a deflating effect This followed on the crumbling of the new parties in Europe In Greece Syriza buckled in the face of the iron straitjacket imposed by EU institutions in Spain Podemos fractured under the weight of its ideological and institutional weaknesses and Bloco fared no better in Portugal Meanwhile the Chavez inspired Bolivarian revolutions in Latin America hit an impasse barely stumbling along We find socialist strategy again at a crossroads pressed by the urgent need to find new directions forward amidst mounting crises Some on the left searching for new paths forward saw little alternative but to support authoritarian neoliberal states in their coercive response to a rising tide of hard right forces as if the repressive and bloody campaigns launched by powerful states could constitute junior components of anti fascist popular fronts Others in the left turned to the workplace taking new approaches to union organizing seeking to build a working class base for radical politics whose absence seemed directly responsible for another round of defeats At this new conjuncture what was left of the strategy tactics and organizations that had seemed so promising Was the new socialist left starting over or moving on This year s Socialist Register 2025 engages with the openings and closures of at the crossroads of Socialist strategy with case studies from Britain US Pakistan Argentina Germany Bolivia Barcelona and Turkey engaging with topics such as social struggles over climate change Palestine solidarity public banks re municipalization of utilities and unions
