and Philosophy of Spirits, Apparitions Augustine Calmet, 2017-11-08 Many people today are entranced by the idea of speaking with the dead or else immersing themselves in vampire tales and wonder What most people don t realize is how old and revered these stories really are Within this work Calmet attempts to show where the idea of spirits and apparitions comes from and then within the second part of the main work where the idea and history of the vampire itself comes from

This work simply is not just a history text of ancient religious beliefs but also explains the thinking and beliefs that surrounded the spirits and vampires in the day and age when Calmet wrote this work *Evil, Spirits, and Possession* David L Bradnick, 2017-08-28 In *Evil Spirits and Possession* An Emergentist Theology of the Demonic David Bradnick develops a

multidisciplinary view of the demonic using biblical theological social scientific and philosophical scientific perspectives Building upon the work of Pentecostal theologian Amos Yong this book argues for a theology informed by emergence theory whereby the demonic arises from evolutionary processes and exerts downward causal influence upon its constituent

substrates Consequently evil does not result from conscious diabolic beings rather it manifests as non personal emergent forces that influence humans to initiate and execute nefarious activities Emergentism provides an alternative to

contemporary views which tend to minimize or reject the reality of the demonic and it retains the demonic as a viable theological category in the twenty first century *The Continental Monthly*, 1864 **The Great Book of Magical Art, Hindu Magic and East Indian Occultism** Lauron William De Laurence, 1915 *The Gothic Body* Kelly Hurley, 1996-12-05

Readers familiar with Dracula and The Strange Case of Dr Jekyll and Mr Hyde may not know that dozens of equally remarkable Gothic texts were written in Great Britain at the end of the nineteenth century This book accounts for the resurgence of Gothic and its immense popularity during the British fin de siècle Kelly Hurley explores a key scenario that haunts the genre the loss of a unified and stable human identity and the emergence of a chaotic and transformative abhuman identity in its place She shows that such representations of Gothic bodies are strongly indebted to those found in nineteenth century biology and social medicine evolutionism criminal anthropology and degeneration theory Gothic is revealed as a highly productive and speculative genre standing in opportunistic relation to nineteenth century scientific and social theories
