Selected Correspondence 1924 1949:

Selected Correspondence, 1924-1949 Eric Voegelin, 2009 This volume contains selected correspondence written by Eric Voegelin during the period 1924 to 1949 The Editorial Board of the Collected Works of Eric Voegelin agreed from the beginning that a representative number of Voegelin's letters should complete the edition in an attempt to provide the reader with insights into Voegelin's intellectual life and into the fundamental experiences that went into shaping the growth of his personality It was the board's aim to select material in accordance with the guidelines that Voegelin himself laid down as fundamental to a hermeneutical understanding of spiritual reality Voegelin wrote that in studying a thinker one must try to elucidate the biographical radices of philosophizing He said that one must penetrate to the experiences that impel him toward reflection and do so because they have excited consciousness to the awe of existence Voegelin made these remarks on the occasion of conducting anamnestic experiments which reveal the motivational center of his own life At the core of Voegelin's concept of political science is a noetic interpretation of man society and history that confronts the conception of order prevalent in the surrounding society with the criteria of the critical knowledge of order From the 1930s onward Voegelin labored to find a satisfactory self-reflexive explication of the principles of a contemplative understanding of human reality one grounded in the spiritual experience of reason Naturally it is the published word that determines a thinker's scholarly stature But Voegelin's letters also grant insight into the development of his thought document the author's struggle with himself the telos of his scholarship and reveal an often involuntary conflict with his life world These letters shed light on an ongoing and open-ended thought process from which a multifaceted sometimes apparently contradictory work emerged Because of the enormous number of letters that Voegelin wrote in his later years now published in the second volume of the Selected Correspondence Volume 30 of the Collected Works the editors agreed that these books would contain only letters from Eric Voegelin While such a selection of letters cannot provide the completeness that the publication of both dialogue partners would provide nevertheless they reveal Voegelin's ongoing reflection on human affairs They reveal patterns of thought and their development in the atmosphere of intimate communication that personal and intellectual elective affinities produce and they also disclose the silences that accompany such discourse This volume is certain to interest all readers concerned with political theory and with better understanding of Voegelin's intellectual pilgrimage from his earliest academic years to his emergence as one of the most significant philosophers of our time

The Collected Works of Eric Voegelin: Selected correspondence Eric Voegelin, 2009 An Exceptional Dialogue, 1925-1948 Bernard

Hubert, 2025-03-04 In 1924 the Russian Orthodox philosopher in exile Nikolai Berdyaev ended up in the environs of Paris where he met and befriended the French Catholic philosopher Jacques Maritain Coming from different faiths and disparate cultures they shared a common desire to assert the essential dignity and rights of the human person in an era torn apart by extremism and conflict They embarked on a joint endeavour to promote ecumenical dialogue and philosophical conversation

in interwar Europe Their collaboration was instrumental in developing a philosophy of Christian personalism and seminal in the emergence of existentialism Newly translated into English *An Exceptional Dialogue* 1925 1948 reproduces the two thinkers correspondence along with Bernard Hubert s original introductory essay his notes to the French edition and a new introduction by Ana Siljak An intimate and remarkable portrait emerges The two men met and corresponded often during their two decades of friendship their homes became spaces for conversations on religion and philosophy and together they contributed to the development of a Christian humanism and personalism that inspired such disparate figures as Hannah Arendt and Martin Luther King Jr and that influenced Maritain s work on the United Nations Universal Declaration of Human Rights *An Exceptional Dialogue* 1925 1948 reveals the connectedness between Russian and European thought explores the contributions of French Russian personalism to the history of human dignity and provides insight into a strain of philosophy often ignored in contemporary scholarship

A Friendship That Lasted a Lifetime Gerhard Wagner, Gilbert Weiss, 2011-02-21 Scholarly correspondence can be as insightful as scholarly work itself as it often documents the motivating forces of its writers intellectual ideas while illuminating their lives more clearly The more complex the authors scholarly works and the more troubled the eras in which they lived the more substantial and potentially fascinating their correspondence This is especially true of the letters between Alfred Schutz 1899 1959 and Eric Voegelin 1901 1985 The scholars lived in incredibly dramatic times and produced profound complex works that continue to confound academics The communication between these two giants of the social sciences as they sent their thoughts to one another was crucial to the work of both men *A Friendship That Lasted a Lifetime: The Correspondence between Alfred Schutz and Eric Voegelin* demonstrates that Schutz and Voegelin shared a remarkable friendship they first met as students in Vienna in the 1920s and found themselves great partners in discussion years later they were pushed out of Europe by Nazi pressure and went to work at separate American universities For twenty years they wrote each other developing their respective scientific works in that dialogue The letters bear witness to their friendship during the years they spent in exile in the United States and they document the men s tentative attempts at formulating the theories of lifeworld and gnosis associated with Schutz and Voegelin today The entire collection of 238 letters was printed in German in 2004 but this edited volume is the first to present their correspondence in English and offers a selection of the most important letters those that contributed to the thinkers theoretical discussions and served as background to their most significant thoughts Editors Gerhard Wagner and Gilbert Weiss do not analyze Schutz s and Voegelin s works in light of the correspondence rather they present the collection to create a framework for new interpretations *A Friendship That Lasted a Lifetime* takes a unique look at two major social scientists This volume is a valuable resource in the study of Voegelin s political philosophy and Alfred Schutz s contribution to American sociology and marks an important addition to the literature on these remarkable men Showing how scholarly discourse and the dialogue of everyday life can shed light on one another the book finally presents this correspondence for an

American audience and is not to be missed by scholars of philosophy and sociology The Story of International Relations, Part Three Jo-Anne Pemberton, 2020-03-16 This book is the third volume in a trilogy that traces the development of the academic subject of International Relations or what was often referred to in the interwar years as International Studies This volume explores how International Relations progressed through the 20th century looking specifically at World War II from the looming world war to the post War reconstruction in Europe This one of a kind project takes on the task of reviewing the development of IR aptly published in celebration of the discipline's centenary

Eric Voegelin's Political Readings Bernat Torres, Josep Monserrat Molas, 2021-07-22 Eric Voegelin's Political Readings fills a critical void by providing an original approach to studying the work of Eric Voegelin one of the major political philosophers of the twenty first century Across six chapters experts guide the reader from classical to modern times presenting six political philosophers who have had an impact on the life and philosophical production of Eric Voegelin Philosophers examined include Plato Aristotle Saint Augustine Hobbes Weber and Kelsen Through this innovative structure the chapters collectively illustrate how Voegelin was an exceptional thinker through his engagement with political philosophers both modern and antique The plurality of unique academic perspectives and voices enriches our understanding of Voegelin's own thought while also encouraging a re think of ancient and modern thinkers and the transformation and continuity between these Designed for students and scholars alike Eric Voegelin's Political Readings will appeal to all those with an interest in Voegelin as well as readers familiar with classical and modern political philosophers

Volume 14: Kierkegaard's Influence on Social-Political Thought Jon Stewart, 2016-12-05 While scholars have long recognized Kierkegaard's important contributions to fields such as ethics aesthetics philosophy of religion philosophical psychology and hermeneutics it was usually thought that he had nothing meaningful to say about society or politics Kierkegaard has been traditionally characterized as a Christian writer who placed supreme importance on the inward religious life of each individual believer His radical view seemed to many to undermine any meaningful conception of the community society or the state In recent years however scholars have begun to correct this image of Kierkegaard as an apolitical thinker The present volume attempts to document the use of Kierkegaard by later thinkers in the context of social political thought It shows how his ideas have been employed by very different kinds of

writers and activists with very different political goals and agendas Many of the articles show that although Kierkegaard has been criticized for his reactionary views on some social and political questions he has been appropriated as a source of insight and inspiration by a number of later thinkers with very progressive indeed visionary political views **The Project of Positivism in International Law** Mónica García-Salmones Rovira, 2013-11 This book analyses international legal positivists desire to emulate the success of the empirical methods applied in the biological and physical sciences their wish to work with law with the certainty that natural facts started to provide as the natural sciences method developed PREFACE

Eric Voegelin Today Scott Robinson, Lee Trepanier, David Whitney, 2019-07-25 This book analyzes Eric Voegelin s scholarly works from the 1950s and early 1960s and examines the ways in which these works are relevant to the twenty first century political environment The collection of essays evaluated in this book cover a wide array of topics that were of great curiosity sixty years ago and still relevant in today s society The authors in this volume demonstrate that Voegelin s erudition on topics such as revolutionary change ideological fervor industrialization globalism and the place for reason and how it may be cultivated in complex times remains as meaningful today as it was then **Max Weber in Politics and Social Thought** Joshua Derman, 2012-10-18 A comprehensive account of the wide ranging impact of Max Weber s ideas on German and American intellectuals in the twentieth century **Economists and War** Fabrizio Bientinesi, Rosario Patalano, 2016-11-03 War and economic power have been interwoven in the thought of scholars since the beginnings of economic science and views on the role of war in the economy have shifted dramatically as the world order has changed The centenary of World War I has offered the opportunity for increased reflection on this topic particularly as the war itself stimulated new directions for both research and the development of theory Economists and War brings together expert contributors who are united in their commitment to exploring this classic subject from innovative and heterodox points of view The chapters presented in the book delve into a wide range of perspectives from Japan in the Second World War and Italy in the First the debate on State intervention among German speaking authors to the debate on the economic bases of perpetual peace and from Keynes who wrote on the irrationality of war to Sismondi who saw war as an opportunity for economic development and not only for nation states This volume is essential reading for scholars of the history of economic thought international political economy and intellectual history It is also of great interest to those studying military and naval history **The Eric Voegelin Reader** Charles R. Embry, Glenn Hughes, 2017-10-20 By the time Eric Voegelin fled Hitler s regime and made his way to the United States in 1938 he had already written four books criticizing Nazi racism establishing what would be the focus of his life s work to account for the endemic political violence of the twentieth century One of the most original political philosophers of the period Voegelin has largely avoided ideological labels or categorizations of his work Because of this however and because no one work or volume of his can do justice to his overall project his work has been seen as difficult to approach Drawing from the University of Missouri Press s thirty four volume edition of The Collected Works of Eric Voegelin 1990 2009 Charles

Embry and Glenn Hughes have assembled a selection of representative works of Voegelin satisfying a longstanding need for a single volume that can serve as a general introduction to Voegelin's philosophy. The collection includes writings that demonstrate the range and creativity of Voegelin's thought as it developed from 1956 until his death in 1985 in his search for the history of order in human society. The Reader begins with excerpts from *Autobiographical Reflections* 1973 which include an orienting mixture of biographical information, philosophical motivations, and the scope of Voegelin's project. It reflects key periods of Voegelin's philosophical development, pivoting on his flight from the Gestapo. The next section focuses on Voegelin's understanding of the contemporary need to re-ground political science in a non-positivistic, post-Weberian outlook and method. It begins with Voegelin's historical survey of science and scientism, followed by his explanation of what political science now requires in his introduction to *The New Science of Politics*. Also included are two essays that exemplify the practice of this new science. Voegelin started his academic career as a political scientist, and these early essays indicate his wide philosophical vision. Voegelin recognized that a fully responsible new science of politics would require the development of a philosophy of history. This led to the writing of his magnum opus, the five-volume *Order and History* 1956-1985. This section of the Reader includes his introductions to volumes 1, 2, and 4, and his most essential accounts of the theoretical requirements and historical scope of a philosophy of history adequate to present-day scholarship and historical discoveries. In the course of his career, Voegelin came to understand that political science, political philosophy, and philosophy of history must have as their theoretical nucleus a sound philosophical anthropology based on an accurate philosophy of human consciousness. The next set of writings consists of one late lecture and four late essays that exemplify how Voegelin recovers the wisdom of classical philosophy and the Western religious tradition while criticizing modern misrepresentations of consciousness. The result is Voegelin's contemporary accounts of the nature of reason, the challenge of truly rational discussion, and the search for divine origins and the life of the human spirit. During his philosophical journey, Voegelin addressed the historical situatedness of human existence, explicating the historicity of human consciousness in a manner that gave full due to the challenges of acknowledging both human immersion in the story of history and the ability of consciousness to arrive at philosophically valid truths about existence that are transhistorical. The essays in this final section present the culmination of his philosophical meditation on history, consciousness, and reality.
