The Modern Middle School Gilbert Hunt, Dennis Wiseman, Sandra Bowden, 2003 Middle school educators are facing many challenges in today's educational and political environment due to the focus on excellence as measured by achievement tests It is the purpose of this book to provide a discussion of how middle schools can provide a strong standards based academic program while at the same time remaining focused on the student centered principles upon which the middle school experience should be based The text is intended to aid readers in the development of the teaching philosophies behaviors and skills relevant to effective instruction in the unique middle school environment This emphasis reflects the philosophy that teachers ultimately determine the quality of schooling and that the learning environment should be student centered while maintaining a strong academic foundation The text begins with an overview of the origins and essential elements of middle schools proceeds through discussions of middle school teachers students schooling structures and teaching strategies and concludes with a view of the future Specifically chapters offer suggestions for teaching and learning in the middle school environment for developing essential teaching characteristics for creating a positive middle school

climate for planning the curriculum for providing developmentally appropriate instruction and for assessing and reporting student progress This outstanding new edition provides a comprehensive current and cohesive text that allows the reader to more clearly understand the nature and importance of significant standards issues and developments within the ongoing evolution of the modern American middle school *Guiding Curriculum Development* M. Scott Norton, 2016-11-02 Top down mandates concerning the curriculum of the school leave no room for program creativity and program commitment Yet principals and teachers are held accountable for student achievement results Constitutionally powers not granted to the United States are reserved to the States or to the people The book s primary purposes center on the need for placing the responsibility for determining student curriculum and academic achievement the local school level whereby school personnel determine the individual student s personal interests and needs and design a curricular program for each student that fosters personnel success The creative abilities of teachers are inhibited in attempts to implement top down mandates that set forth academic content and instructional methods set forth by federal and state agencies If learning programs and instructional methods are to be designed to meet the individual interests and needs of the learner who is in the best position to determine such needs We believe that the social mental and physical needs of children and youth are determined best by local educational professionals This book sets forth the foundations of practice that will serve these purposes *Educational Assessment* Robert J. Wright, 2008 *Educational Tests and Measurements in the Age of Accountability* is a core text for use in a first level graduate course in educational measurement and testing In addition to covering the topics traditionally found in core textbooks for this course this text also provides coverage of contemporary topics including national testing programs international achievement comparisons the value added assessment of schools and teachers and the public policy debate on selective admissions vs affirmative minority enrollment
