

Student Guide to the Frog Dissection

Dissection Instructions

1. Place the frog in the dissecting pan ventral side up.
2. Use scissors to lift the abdominal muscles away from the body cavity. Cut along the midline of the body to the forelimbs.
3. Make transverse (horizontal) cuts near the arms and legs.
4. Lift the flaps of the body wall and pin back.

*If your specimen is a female, the body may be filled with eggs. You may need to remove these eggs to view the organs.

Locate each of the organs below. Check the box to indicate that you found the organs.

1. **Fat Bodies** --Spaghetti shaped structures that have a bright orange or yellow color, if you have a particularly fat frog, these fat bodies may need to be removed to see the other structures. Usually they are located just on the inside of the abdominal wall. ☐
2. **Peritoneum** A spider-web like membrane that covers many of the organs; you may carefully pick it off to get a clear view ☐
3. **Liver**--The largest structure of the the body cavity. This brown colored organ is composed of three lobes. The **right lobe**, the **left anterior lobe**, and the **left posterior lobe**. The liver is not primarily an organ of digestion, it does secrete a digestive juice called bile. Bile is needed for the proper digestion of fats. ☐
4. **Heart** - at the top of the liver, the heart is a triangular structure. The **left and right atrium** can be found at the top of the heart. A single **ventricle** located at the bottom of the heart. The large vessel extending out from the heart is the **conus arteriosis**.☐

Student Study Guide Frog Dissection Laboratory

Bertram Garner Smith

Student Study Guide Frog Dissection Laboratory:

Laboratory Guide for the Study of the Frog Bertram Garner Smith,1917 **A Laboratory Guide to Frog Anatomy** Eli C. Minkoff,2013-10-22 A Laboratory Guide to Frog Anatomy is a manual that provides essential information for dissecting frogs The selection provides comprehensive directions along with detailed illustrations The text covers five organ systems namely skeletal muscular circulatory urogenital and nervous system The manual also details a frog s major external and internal features The book will be of great use to students and instructors of biology related laboratory course 32 Quick & Fun Content Area Computer Activities Lynn Van Gorp,2006 Incite Grades 68 students enthusiasm to learn using technology in the curriculum Youll enhance learning and encourage high order thinking by incorporating a technology project for every week of the school year Students will develop key technology skills in word processing spreadsheets multimedia presentations and using the Internet while you teach regular classroom content Lessons are divided among content areas and the flexible projects are great for computer centers labs or one computer classrooms The easy to follow teacher instructions and step by step student directions make this resource a hit in the classroom The included Teacher Resource CD contains sample projects templates and assessment rubrics 160pp *Biology* ,1996 *Carolina Science and Math* Carolina Biological Supply Company,2003 The Latest and Best of TESS ,1991 **Laboratory Manual and Study Guide for Integrated Science for Health Students** T.
