2. About how often does a Full Moon happen?

About once a month

Gizmo Warm-up

1. In the *Phases of the Moon* Gizmo, click **Play** (▶). What do you notice about the motion of the Moon?

One half of the moon is always illuminated and we always see the same side of the moon.

The path that the Moon takes is called its **orbit**. The Moon is **revolving** around Earth.

2. What do you notice about the motion of Earth?

The Earth is moving faster than the moon.

This motion is called **rotation**. Earth rotates on its **axis**, a straight line connecting the North Pole to the South Pole.

3. Where would you have to be to see the view shown above? Explain.

You would have to be in space because it is the only way to see everything happening at the same time.

Discovering the Universe William J. Kaufmann, Neil F. Comins, 2008-12-26 Discovering the Universe From the Stars to the Planets engages students with an inquiry based exploration of the universe and the scientific process Developed with a big picture approach the text first explains how the stars the galaxies and the entire universe formed and then discusses planets and other components of our solar system Students follow this natural conceptual progression within a proven learning method designed to address misconceptions and build a deep understanding of science and the world around us

Targeting Text Katrina Wood, Sue Stubbs, 2000 **Self-study and Inquiry Into Practice** Linda Kroll, 2012 There are new pressures and familiar pressures on teacher educators to prepare teachers who will be able to teach successfully in a changing world and who will be able to change the world The question of how to prepare well qualified teachers has become an international question with global responses and consequences This book describes a stance and pedagogy for helping young teachers to be successful in the most challenging of circumstances Self study and Inquiry into Practice describes how inquiry can contribute to effective teaching in urban settings The use of inquiry and self study as a way of thinking about understanding and developing one's practice and one's teaching supports teachers continued inspiration and resilience enabling them to teach all children effectively in the face of very challenging circumstances Using rich examples and case studies of how pre service teachers and beginning teachers have used inquiry to learn from demanding urban placements Kroll shows the importance of using inquiry and self study in learning to teach and also in continuing to learn as one teaches

Inquiry is a useful way to understand what students understand and what they learn from our teaching self study reminds us of the power and responsibility we have to ensure that all our students achieve their highest potential This book aims to help teachers and teacher educators overcome the wash out effect of teacher education when teaching in challenging circumstances learn to ask questions and to pose questions to themselves learn to think about difficult theory in a way that will be useful to them in the moment make inquiry stance a habit of mind be empowered as experts in investigating and improving their own practice Being a successful teacher in urban schools takes a special kind of person one who has been thoroughly prepared and one who pays close attention to the learners she or he is teaching This book will be useful for both practicing teachers and teacher educators as they work together to craft excellent teacher education and teaching for all students adult and child It provides theoretical and practical ideas about how inquiry and self study can promote lifelong learning and resilience in the practice of one of the most challenging but rewarding professions **Glencoe Science**
