

General Student Growth Objectives

General Student Growth Objectives

There are two strategies to consider when setting a General SGO: simple and tiered.

- The **simple method** is based on determining how many of the total students are expected to meet a single target.
- The **tiered method** is based on expected growth within groups of students identified by their starting points, as discussed in SGO Step 2. (This is a part of the General SGO and should not be confused with a Specific SGO.)

Setting Simple Student Growth Objectives

To use the simple method of setting General SGOs, educators must predict what percentage of students would attain a particular level of performance on the final assessment. There are four levels of attainment of this objective. Shown in Figure 5 are the four levels of attainment possible for a student growth objective and what each level means.

Attainment of Student Growth Objective			
Exceptional 4	Full 3	Partial 2	Insufficient 1
Teacher has demonstrated an exceptional impact on learning by exceeding the objective.	Teacher has demonstrated a considerable impact on learning by meeting the objective.	Teacher has demonstrated some impact on learning but did not meet the objective.	Teacher has demonstrated an insufficient impact on learning by falling far short of the objective.
