**Policing Undocumented Migrants** Louise Boon-Kuo, 2017-08-07 Migration policing experiments such as boat turn backs and offshore refugee processing have been criticised as unlawful and have been characterised as exceptional Policing Undocumented Migrants explores the extraordinarily routine powerful and above all lawful practices engaged in policing status within state territory This book reveals how the everyday violence of migration law is activated by making people illegal It explains how undocumented migrants are marginalised through the broad discretion underpinning existing frameworks of legal responsibility for migration policing Drawing on interviews with people with lived experience of undocumented status within Australia perspectives from advocates detailed analysis of legislation case law and policy this book provides an in depth account of the experiences and legal regulation of undocumented migrants within Australia Case studies of street policing immigration raids transitions in legal status such as release from immigration detention and character based visa determination challenge conventional binaries in migration analysis between the citizen and non citizen and between lawful and unlawful status By showing the organised and central role of discretionary legal authority in policing status this book proposes a new perspective through which responsibility for migration legal practices can be better understood and evaluated Policing Undocumented Migrants will be of interest to scholars and practitioners working in the areas of criminology criminal law immigration law and border studies

**Administrative Justice in Context** Michael Adler, 2010-04-30 This book comprises a definitive collection of papers on administrative justice written by a set of very distinguished contributors It is divided into five parts each of which contains articles on a particular aspect of administrative justice The first part deals with the impact of contextual changes on administrative justice and considers the implications of changes in governance and public administration management and service delivery information technology audit and accounting and human rights for administrative justice The second part deals with conceptual issues and describes a number of competing approaches to the administrative justice The third part deals with the application of administrative justice principles to private law disputes while the fourth part deals with the distinctive characteristics of administrative justice in three other jurisdictions The final part deals with current developments in administrative justice and the book concludes with a discussion of legislative and policy developments in the UK The general approach of the book is socio legal and interdisciplinary The chapters adopt a variety of disciplinary perspectives including those derived from political science public policy social policy accounting and information technology as well as from law Although most of the contributors are academics some are practitioners For these reasons the book should be of interest to lawyers particularly those with interests in administrative law and to social scientists particularly those with interests in public administration public policy and public management

**Sunk Cost** Jillian Berman, 2025-04-08 Exposes the forgotten origins of the student loan system how politicians have attempted to fix it and the life altering damage borrowers face Student loan horror stories are a dime a

dozen But students today are faced with a seemingly insurmountable paradox Research consistently shows that the clearest viable option to financial stability is a college degree But if and when Americans decide to pursue diplomas student loan payments quickly follow and even after securing full time employment many borrowers struggle to make ends meet for years In Sunk Cost journalist Jillian Berman explores how the nation's student loan program went from a well intentioned initiative aimed at helping low and middle income students afford college to one that traps borrowers in long term debt Berman interviewed dozens of borrowers and policymakers and dug into the archives to unearth the true causes of the student loan problem A couple of generations ago policy makers generously subsidized Americans college educations because they knew it would be advantageous for the entire country a more educated population meant better quality of life for all But today higher education is viewed as an individual goal so students and their families are expected to be on the hook for it themselves Berman explains how this enormous shift happened which industries benefit from it and what it means for college going Americans today She shares real life stories of college graduates who are being crushed under some of the harshest consequences of the student loan system These borrowers pursued higher education in hopes of a better life and yet some have been trapped in debt for decades making it difficult to put food on the table much less imagine a life beyond debt By connecting personal accounts to the policy history of student loans Berman makes clear that if American society continues to push students toward higher education but fails to truly subsidize it the financial strain will become unbearable for all but the most privileged The current system is broken but Berman proposes that significant changes are possible and will require political will from state lawmakers and Congress along with a philosophical shift to tackle one of the largest consumer finance challenges of our time

The Student Loan Mess Joel Best, Eric Best, 2014-05-02 This illuminating investigation uncovers the full dimensions of the student loan disaster A father and son team one a best selling sociologist the other a former banker and current quantitative researcher probes how we've reached the point at which student loan debt now exceeding 1 trillion and predicted to reach 2 trillion by 2020 threatens to become the sequel to the mortgage meltdown In spite of their good intentions Americans have allowed concerns about deadbeat students crushing debt exploitative for profit colleges and changing attitudes about the purpose of college education to blind them to a growing crisis With college costs climbing faster than the cost of living how can access to higher education remain a central part of the American dream With more than half of college students carrying an average debt of 27 000 at graduation what are the prospects for young adults in the current economy Examining how we've arrived at and how we might extricate ourselves from this grave social problem The Student Loan Mess is a must read for everyone concerned about the future of American education Hard facts about the student loan crisis Student loan debt is rising by more than 100 billion every year Among recent college students who are supposed to be repaying their loans more than a third are delinquent Because student loans cannot be discharged through bankruptcy the federal government misleadingly treats student loan debt as a government asset Higher default rates

spiraling college costs and proposals for more generous terms for student borrowers make it increasingly likely that student loan policies will eventually cost taxpayers hundreds of billions of dollars      Cyberbullying in the Global Playground Qing Li, Donna Cross, Peter K. Smith, 2012-02-20 Cyberbullying in the Global Playground provides the first global in depth analysis of the emerging phenomenon of cyberbullying Offers the first thorough comparative account of recent research into the emerging global phenomenon of cyberbullying Provides an international perspective on the prevalence and nature of cyberbullying Presents recent authoritative research within a critical perspective drawing out theoretical and practical implications for policy and practice May be used to help design intervention evaluation and policy strategies for effective efforts to combat the international phenomenon of cyberbullying      *The Organizational Ombudsman* Charles L. Howard, 2010 This book provides a detailed rationale for the creation of ombudsman offices suggestions for structuring and documenting an ombudsman program and how to address issues that arise in litigation a comprehensive presentation of various legal issues associated with organizational ombudsman programs and numerous examples of how ombudsmen function in their organizations to illustrate how they are effective in addressing issues that people would not otherwise raise

**Game of Loans** Beth Akers, Matthew M. Chingos, 2018-05-29 Why fears about a looming student loan crisis are unfounded and how they obscure what's really wrong with student lending College tuition and student debt levels have been rising at an alarming pace for at least two decades These trends coupled with an economy weakened by a major recession have raised serious questions about whether we are headed for a major crisis with borrowers defaulting on their loans in unprecedented numbers and taxpayers being forced to foot the bill Game of Loans draws on new evidence to explain why such fears are misplaced and how the popular myth of a looming crisis has obscured the real problems facing student lending in America Bringing needed clarity to an issue that concerns all of us Beth Akers and Matthew Chingos cut through the sensationalism and misleading rhetoric to make the compelling case that college remains a good investment for most students They show how in fact typical borrowers face affordable debt burdens and argue that the truly serious cases of financial hardship portrayed in the media are less common than the popular narrative would have us believe But there are more troubling problems with student loans that don't receive the same attention They include high rates of avoidable defaults by students who take on loans but don't finish college the riskiest segment of borrowers and a dysfunctional market where competition among colleges drives tuition costs up instead of down Persuasive and compelling Game of Loans moves beyond the emotionally charged and politicized talk surrounding student debt and offers a set of sensible policy proposals that can solve the real problems in student lending      *Textbook on Administrative Law* Peter. Leyland, Gordon Anthony, 2016 The eighth edition of Textbook on Administrative Law provides a concise and topical account of this fast moving area of law This edition remains as accessible as ever fully exploring the core areas of the subject and setting them in a contextual framework In addition to widespread recognition as an invaluable core text for LLB and GDL students Textbook on

Administrative Law is a stimulating introduction for postgraduates and for non law undergraduates with an interest in the field Key coverage Fully updated and revised to reflect changes in the administrative state post 2015 election Comprehensive analysis of developments in judicial review with reference to the main decisions including Evans HS2 Sandiford Pham and Keyu m Analysis of the main developments in human rights jurisprudence Reference to developments in EU law and their impact on domestic administrative law Revised discussion of ombudsmen and tribunals as non judicial remedies Book jacket

**Challenges in Human Rights** Elisabeth Reichert, 2007 By using human rights as a guidepost social workers can help create social welfare policies that better serve societal needs However in applying human rights to contemporary situations social workers often encounter challenges that require thinking outside the box Bringing together provocative essays from a diverse range of authors Elisabeth Reichert demonstrates how approaching social work from a human rights perspective can profoundly affect legislation resource management and enforcement of policies Topics include the reconciliation of cultural relativism with universal human rights the debate over whether human rights truly promote economic and social development or simply allow economically developed societies to exploit underdeveloped countries the role of gender in the practice of human rights the tendency to promote political and civil rights over economic and social rights and the surprising connection between the social work and legal professions *We Demand* Roderick A. Ferguson, 2017-04-25 Puts campus activism in a radical historic context New York Review of Books In the post World War II period students rebelled against the university establishment In student led movements women minorities immigrants and indigenous people demanded that universities adapt to better serve the increasingly heterogeneous public and student bodies The success of these movements had a profound impact on the intellectual landscape of the twentieth century out of these efforts were born ethnic studies women s studies and American studies In *We Demand* Roderick A Ferguson demonstrates that less than fifty years since this pivotal shift in the academy the university is moving away from the people in all their diversity Today the university is refortifying its commitment to the defense of the status quo off campus and the regulation of students faculty and staff on campus The progressive forms of knowledge that the student led movements demanded and helped to produce are being attacked on every front Not only is this a reactionary move against the social advances since the 60s and 70s it is part of the larger threat of anti intellectualism in the United States

**Supervising Conflict** Heather McGhee Peggs, 2023-04-28 Cultivating respectful and productive academic relationships is a priority within higher education What can faculty do when conflict disrupts research progress and strains the supervisor student relationship *Supervising Conflict* offers practical advice and tools to help faculty identify and actively respond to the most common grad school concerns the everyday conflicts Drawing on data collected over four years at a large research intensive university in Canada Heather McGhee Peggs provides faculty with a map to where issues are likely to emerge based on hundreds of coaching conversations with faculty and students While ideally every campus would have a dispute resolution office and a graduate peer support team to help

individuals navigate conflict the reality is that faculty are often managing complex and difficult situations on their own This unique resource combines negotiation and fair complaints handling principles with insights from a multidisciplinary graduate peer team and highlights the critical role that equitable restorative and trauma informed approaches can play in the emergence and resolution of conflict This book includes opportunities for self reflection real life case studies and activities for professional faculty development Supervising Conflict guides administrators seeking to address graduate concerns earlier and more effectively at a systemic level *Faith and Revivalism in a Nordic Romani Community* David Thurfjell,2013-03-19

A Pentecostal revival is sweeping the Romani communities of Europe The dominant religious orientation of European Roma Pentecostalism has become one of the major factors behind Romani social development in the wake of the discrimination marginalisation and growing anti ziganist sentiments of the latest decades Through this form of charismatic Protestant Christianity Roma have overcome social problems and internal conflicts as well as battle against the hostility and exclusion of the macro gajo non Roma society Based on interviews and field work this original ethnographic study offers a unique presentation and analysis of the Pentecostal revival in one of Europe s many Romani communities the Kaale Roma of Finland and Sweden Through individual life stories historical exposes sociological interpretation and ritual and discourse analysis Thurfjell provides a vivid accurate portrait of the multifaceted and complex situation of contemporary Roma Despite the efforts of the Nordic welfare state over the past decades to counteract poverty and to integrate their Romani communities into society these groups are persistently problematic Inspired by postcolonial theory Thurfjell s study addresses the failure of the integration politics of the Roma he highlights the discursive pressure the hegemonial society places on outsiders as it reaches out to help them Romani individuals it is argued are caught in a deadlock between the pressure to assimilate themselves into the majority society and that of their community to remain Romani This study of the Pentecostal movement is of interest to anyone who seeks to understand the religious historical social and discursive processes that underlie the complex and difficult situation of European Roma today **Code of Federal Regulations** United States.
