Student Plagiarism in Higher Education Diane Pecorari, Philip Shaw, 2018-10-09 Student Plagiarism in Higher Education is a crucial read for any university teacher concerned about plagiarism. It provides the tools and information needed to assess this often complex international phenomenon constructively and effectively from a variety of angles and provides a framework for further discussion and research. Each chapter poses a question about an essential aspect of plagiarism and examines the central theoretical, ethical, and technical questions which surround it. Providing a unique perspective on the topic of academic plagiarism, this book addresses questions which are vexing in teaching practice but for which ready answers are not available in professional skills development materials. It relates plagiarism to wider issues of learning and intellectual development, collates the thinking of international leading experts on the topic of plagiarism from different areas of the academy. Student Plagiarism in Higher Education provides an excellent insight which thoroughly interrogates all aspects of the plagiarism argument. Theoretically based and carefully considered contributions from international experts ensure that this volume is an invaluable asset to anyone wishing to read more, learn more, and think more about plagiarism. *The Royal Standard English Dictionary ... The Tenth Edition, Etc* William PERRY (of Edinburgh.), 1804 The Formation of College English Thomas P. Miller, 1997-04-15 In the middle of the eighteenth century English literature, composition, and rhetoric were introduced almost simultaneously into colleges throughout the British cultural provinces. Professorships of rhetoric and belles lettres were established just as print was reaching a growing reading public and efforts were being made to standardize educated taste and usage. The provinces saw English studies as a means to upward social mobility through cultural assimilation. In the educational centers of England, however, the introduction of English represented a literacy crisis brought on by provincial institutions that had failed to maintain classical texts and learned languages. Today, as rhetoric and composition have become reestablished in the humanities in American colleges, English studies are being broadly transformed by cultural studies, community literacies, and political controversies. Once again, English departments that are primarily departments of literature see these basic writing courses as a sign of a literacy crisis that is undermining the classics of literature. *The Formation of College English* reexamines the civic concerns of rhetoric and the politics that have shaped and continue to shape college English. *"The" Athenaeum*, 1895 **Athenaeum and Literary Chronicle**, 1844 **The Spectator**, 1885 **Resources in Education**, 1997 **The Literary Gazette and Journal of the Belles Lettres, Arts, Sciences, &c**, 1855 Journal of Education and School World, 1888 **Succeeding in Graduate School** Steven Walfish, Allen K.
