

A Student's Introduction to English Grammar

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002), winner of the 2004 Leonard Bloomfield Book Award of the Linguistic Society of America. The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken.

This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises and a wealth of other features, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education. Students will achieve an accurate understanding of grammar that will both enhance their language skills and provide a solid grounding for further linguistic study.

Students Guide Pullum Huddleston

George Yule

Students Guide Pullum Huddleston:

The Copyeditor's Handbook Amy Einsohn, Marilyn Schwartz, 2019-05-14 Unstuffy hip and often funny The Copyeditor's Handbook has become an indispensable resource both for new editors and for experienced hands who want to refresh their skills and broaden their understanding of the craft of copyediting This fourth edition incorporates the latest advice from language authorities usage guides and new editions of major style manuals including The Chicago Manual of Style It registers the tectonic shifts in twenty first century copyediting preparing text for digital formats using new technologies addressing global audiences complying with plain language mandates ensuring accessibility and serving self publishing authors and authors writing in English as a second language The new edition also adds an extensive annotated list of editorial tools and references and includes a bit of light entertainment for language lovers such as a brief history of punctuation marks that didn't make the grade the strange case of razbliuto and a few Easter eggs awaiting discovery by keen eyed readers The fourth edition features updates on the transformation of editorial roles in today's publishing environment new applications processes and protocols for on screen editing major changes in editorial resources such as online dictionaries and language corpora new grammar and usage authorities online editorial communities and web based research tools When you're ready to test your mettle pick up The Copyeditor's Workbook Exercises and Tips for Honing Your Editorial Judgment the essential new companion to the handbook

An Introduction to English Grammar Gerald Nelson, Sidney Greenbaum, 2013-11-04 An Introduction to English grammar provides a comprehensive overview of all aspects of English grammar and can be used in the classroom for self study or as a reference book The book is organised in two parts on grammar and its applications and provides everything a beginning student needs to get to grips with the theory and practice of English usage including sections on style punctuation and spelling This third edition has been fully revised and updated to include an expanded section on English in Use usage notes highlighting common errors updated exercises a glossary and a companion website with further graded exercises

Understanding Syntax, Third Edition Maggie Tallerman, 2013-09-05 This is an introduction to the main categories constructions terminology and problems associated with syntax providing a basis from which students can proceed to more advanced work

[The Handbook of](#)

English Linguistics Bas Aarts, April McMahon, 2008-04-15 The Handbook of English Linguistics is a collection of articles written by leading specialists on all core areas of English linguistics that provides a state of the art account of research in the field. Brings together articles from the core areas of English linguistics including syntax phonetics phonology morphology as well as variation discourse stylistics and usage. Written by specialists from around the world. Provides an introduction to a key area of English Linguistics and includes a discussion of the most recent theoretical and descriptive research as well as extensive bibliographic references.

The Linguistic Structure of Modern English Laurel J. Brinton, Donna Brinton, 2010 This text is for advanced undergraduate and graduate students interested in contemporary English especially those whose primary area of interest is English as a second language primary or secondary school education English stylistics theoretical and applied linguistics or speech pathology. The emphasis is on empirical facts of English rather than any particular theory of linguistics. The text does not assume any background in language or linguistics. In this newly revised edition numerous example sentences are taken from the Corpus of Contemporary American English. A full glossary of key terms an additional chapter on pedagogy and new sections on cognitive semantics and politeness have been added. Other changes include completely updated print references web links to sites of special interest and relevance and a revised reader friendly layout. A companion website that includes a complete workbook with self testing exercises and a comprehensive list of web links accompanies the book. The website can be found at the following address <http://dx.doi.org/10.1075/z.156.workbook>. Students completing the text and workbook will acquire a knowledge of the sound system of contemporary English an understanding of the formation of English words a comprehension of the structure of both simple and complex sentence in English a recognition of complexities in the expression of meaning an understanding of the context and function of use upon the structure of the language and an appreciation of the importance of linguistic knowledge to the teaching of English to first and second language learners. Laurel J Brinton is Professor of English Language at the University of British Columbia. Donna M Brinton is Senior Lecturer in TESOL at the University of Southern California's Rossier School of Education. The Linguistic Structure of Modern English is a revised edition of The Structure of Modern English by Laurel J Brinton 2000.

Glossary of English Grammar Geoffrey Leech, 2006-05-19 A Glossary of English Grammar presents a wide range of terms used to describe the way the English language is structured. Grammatical terms can be a problem for students especially when there are alternative names for the same thing for example past tense and preterite. This book therefore provides a basic and accessible guide focusing on the English language. Definitions of grammatical terms are given in simple language with clear examples many from authentic texts and spoken sources showing how they are used. The terms used in the Comprehensive Grammar of the English Language are widely seen as standard and form the basis of grammatical terminology in this book. At the same time this glossary does not neglect other variants of English grammar such as that of Huddleston and Pullum's influential Cambridge Grammar of the English Language whose most important terms are also covered here. This book is

indispensable for anyone wishing to understand present day terminology of English grammar more fully **Understanding Syntax** Maggie Tallerman, 2014-11-13 Assuming no prior knowledge *Understanding Syntax* illustrates the major concepts categories and terminology associated with the study of cross linguistic syntax A theory neutral and descriptive viewpoint is taken throughout Starting with an overview of what syntax is the book moves on to an explanation of word classes such as noun verb adjective and then to a discussion of sentence structure in the world s languages Grammatical constructions and relationships between words in a clause are explained and thoroughly illustrated including grammatical relations such as subject and object function changing processes such as the passive and antipassive case and agreement processes including both ergative and accusative alignments verb serialization head marking and dependent marking grammars configurational and non configurational languages questions and relative clauses The final chapter explains and illustrates the principles involved in writing a brief syntactic sketch of a language enabling the reader to construct a grammatical sketch of a language known to them Data from approximately 100 languages appears in the text with languages representing widely differing geographical areas and distinct language families The book will be essential for courses in cross linguistic syntax language typology and linguistic fieldwork as well as for basic syntactic description **English Grammar** Peter Collins, Carmella Hollo, 2017-09-16 This core textbook helps readers get to grips with the fundamentals of English grammar so that they can critically engage with a wide variety of texts Combining contemporary linguistic approaches with the familiar terminology of traditional grammar this lively book offers a hands on introduction to English grammar It begins by situating the study of grammar within its broader context before moving on to look at the various categories that are used when analysing texts Later chapters focus on the practical application of the skills acquired in the first part of the book This is an indispensable text for students and teachers of English language and linguistics It is also a valuable resource for those studying English as a second or foreign language New to this Edition A wealth of new material including further detail on morphology more examples and revised explanations of key terms Improved glossary and index in response to detailed user feedback Fully updated throughout to meet the needs of today s students *English: An Essential Grammar* Gerald Nelson, 2010-10-25 *English An Essential Grammar* is a concise and user friendly guide to the grammar of modern English written specifically for native speakers and based on genuine samples of contemporary spoken and written English In the first four chapters this book covers the essentials of English grammar beginning with the basics and going on to deal with phrase clause and sentence structure A fifth chapter deals with English word formation and spelling including problem spellings and British and American spelling variants Features include discussion of points that often cause problems guidance on sentence building and composition practical spelling guidelines explanation of grammatical terms a set of exercises at the end of each chapter appendix of irregular verbs With numerous language examples bringing grammar to life this *Essential Grammar* will help you read speak and write English with greater confidence It is ideal for everyone who would like to improve their knowledge of

English grammar Gerald Nelson is Professor in the English Department at The Chinese University of Hong Kong and formerly Reader in the Department of English Language and Literature University College London UK **The Study of Language** George Yule, 2002-11-10 This bestselling textbook provides an engaging and user friendly introduction to the study of language Assuming no prior knowledge of the subject Yule presents information in bite sized sections clearly explaining the major concepts in linguistics and all the key elements of language This eighth edition has been revised and updated throughout with major changes in the chapters on Origins Phonetics Syntax Semantics Pragmatics Discourse Analysis First and Second Language Acquisition and Culture There are forty new study questions and over sixty new and updated additions to the Further Readings To increase student engagement and to foster problem solving and critical thinking skills the book includes over twenty new tasks The online resources have been expanded to include test banks an instructor manual and a substantial Study Guide This is the most fundamental and easy to use introduction to the study of language **English Usage Guides** Ingrid Tieken-Boon van Ostade, 2018 This volume explores both historical and current issues in English usage guides or style manuals Chapters look at how and why these guides are compiled and by whom what sort of advice they contain how they differ from grammars and dictionaries and how attitudes to usage have changed **The Teacher's Grammar of English with Answers** Ron Cowan, 2008-05-26 The Teacher's grammar of English enables English language teachers and teachers in training to fully understand and effectively teach English grammar With comprehensive presentation of form meaning and usage along with practical exercises and advice on teaching difficult structures it is both a complete grammar course and an essential reference text Back cover *The Routledge Handbook of Linguistics* Keith Allan, 2015-07-16 The Routledge Handbook of Linguistics offers a comprehensive introduction and reference point to the discipline of linguistics This wide ranging survey of the field brings together a range of perspectives covering all the key areas of linguistics and drawing on interdisciplinary research in subjects such as anthropology psychology and sociology The 36 chapters written by specialists from around the world provide an overview of each topic an introduction to current hypotheses and issues future trajectories suggestions for further reading With extensive coverage of both theoretical and applied linguistic topics The Routledge Handbook of Linguistics is an indispensable resource for students and researchers working in this area **The Oxford Reference Guide to English Morphology** Laurie Bauer, Rochelle Lieber, Ingo Plag, 2015-08-13 This volume presents a data rich description of English inflection and word formation Based on large corpora including the Corpus of Contemporary American English and the British National Corpus it is the first comprehensive treatment of contemporary English morphology that includes both inflection and word formation It covers not only well studied topics such as compounding conversion and the inflection and derivation of nouns and verbs but also areas that have received less scholarly attention such as the formation of adjectives locatives negatives evaluatives neoclassical compounds and blends among many other topics Equal weight is given to form and meaning The volume also contains sections devoted

to phonological and orthographics aspects of morphology and to combinatorial and paradigmatic properties of English morphology It ends with a series of chapters that assess the implications of English morphology for morphological theory discussing topics such as stratification blocking and competition the analysis of conversion and the relationship between inflection and derivation Winner of the 2015 Bloomfield Book Award and written by three outstanding scholars this outstanding book will interest all scholars and students of English and of linguistic morphology more generally

Linguistics: An Introduction William McGregor, 2009-03-15 A fresh and contemporary introductory textbook for all students of linguistics and language studies

The Sense of Style Steven Pinker, 2014-09-30 Charming and erudite from the author of *Rationality and Enlightenment Now* The wit and insight and clarity he brings is what makes this book such a gem Time com Why is so much writing so bad and how can we make it better Is the English language being corrupted by texting and social media Do the kids today even care about good writing and why should we care From the author of *The Better Angels of Our Nature* and *Enlightenment Now* In this entertaining and eminently practical book the cognitive scientist dictionary consultant and New York Times bestselling author Steven Pinker rethinks the usage guide for the twenty first century Using examples of great and gruesome modern prose while avoiding the scolding tone and Spartan tastes of the classic manuals he shows how the art of writing can be a form of pleasurable mastery and a fascinating intellectual topic in its own right The Sense of Style is for writers of all kinds and for readers who are interested in letters and literature and are curious about the ways in which the sciences of mind can illuminate how language works at its best

Understanding Syntax 2nd Edition Maggie Tallerman, 2014-03-18 This widely acclaimed textbook provides a complete introduction to the syntax of human languages

Absolute Clauses in English from the Systemic Functional Perspective Qingshun He, Bingjun Yang, 2015-02-26 This book focuses on the structural diversity semantic variability case choice stylistic characteristics and diachronic distribution of English absolute clauses The syntactic roles assumed by absolute clauses in the traditional sense can be categorized into clausal adjuncts attendant circumstances and appositives These three types of function correspond to the three hypotactic expansions in the relation system of clause complexes in Systemic Functional Linguistics i.e. elaboration extension and enhancement This research therefore redefines absolute clauses in the framework of SFL and proposes four syntactic types of absolute clauses absolute paratactic clauses elaboration absolute hypotactic clauses extension and enhancement absolute projected clauses fact and act and absolute embedded clauses subject Based on the Brown family corpora BNC and COHA this research finds that different function types of absolute clauses differ in terms of their stylistic and diachronic distributions and both nominative and accusative cases are acceptable

The Foundations of Teaching English as a Foreign Language Paul Lennon, 2020-07-12 An introductory textbook that assumes no prior knowledge of linguistics or second language acquisition this book presents a comprehensive overview of the theoretical foundations methods and practices of Teaching English as a Foreign Language TEFL for pre service teachers Lennon covers the

theoretical bases for TEFL and addresses second language acquisition research past and present EFL teaching methodology as well as psychological and social approaches to individual language learner variation Further chapters provide extensive yet accessible coverage on essential foundational topics including chapters on pronunciation grammar vocabulary literature and testing Offering a sociocultural approach in which the teacher is seen as a facilitator and supporter of students self directed learning this text provides the prospective teacher with the knowledge and skills to be an effective educator in the EFL classroom The targeted EFL focus makes this book ideal for pre service teachers and for teacher training programmes around the world Each chapter includes a Food for Thought section with questions for reflection and a Further Reading list
