Theophilus and the Theory and Practice of Medieval Art Heidi C. Gearhart, 2017-05-02 In this study of the rare twelfth century treatise *On Diverses Arts* Heidi C Gearhart explores the unique system of values that guided artists of the High Middle Ages as they created their works Written in northern Germany by a monk known only by the pseudonym Theophilus *On Diverses Arts* is the only known complete tract on art to survive from the period It contains three books each with a richly religious prologue describing the arts of painting glass and metalwork Gearhart places this one of a kind treatise in context alongside works by other monastic and literary thinkers of the time and presents a new reading of the text itself Examining the earliest manuscripts she reveals a carefully ordered sophisticated work that aligns the making of art with the virtues of a spiritual life *On Diverses Arts* Gearhart shows articulated a distinctly medieval theory of art that accounted for the entire process of production from thought and preparation to the acquisition of material the execution of work the creation of form and the practice of seeing An important new perspective on one of the most significant texts in art history and the first study of its kind available in English *Theophilus and the Theory and Practice of Medieval Art* provides fresh insight into the principles and values of medieval art making Scholars of art history medieval studies and Christianity will find Gearhart's book especially edifying and valuable

The Architecture of Norman England Eric Fernie, 2002 This important addition to the literature is the first overall study of the architecture of Norman England since Sir Alfred Clapham's *English Romanesque Architecture after the Conquest* 1934 Eric Fernie a recognized authority on the subject begins with an overview of the architecture of the period paying special attention to the importance of the architectural evidence for an understanding of the Norman Conquest The second part the core of the book is an examination of the buildings defined by their function as castles halls and chamber blocks cathedrals abbeys and collegiate churches monastic buildings parish churches and palace chapels The third part is a reference guide to the elements which make up the buildings such as apses passages vaults galleries and decorative features and the fourth offers an account of the processes by which they were planned and constructed This book contains powerful new ideas that will affect the way in which we look at and analyze these buildings
