Studies On Thomas Cole An American Romanticist:

Studies on Thomas Cole ,1967 **Studies on Thomas Cole, an American Romanticist Annual II** Howard Merritt,William H. Gerdts,Kay Silberfeld,1968-10 *Thomas Cole's Journey* Elizabeth Mankin Kornhauser,Tim Barringer ,2018-01-29 Thomas Cole 1801 1848 is celebrated as the greatest American landscape artist of his generation Though previous scholarship has emphasized the American aspects of his formation and identity never before has the British born artist been presented as an international figure in direct dialogue with the major landscape painters of the age Thomas Cole s Journey emphasizes the artist s travels in England and Italy from 1829 to 1832 and his crucial interactions with such painters as Turner and Constable For the first time it explores the artist s most renowned paintings The Oxbow 1836 and The Course of Empire cycle 1834 36 as the culmination of his European experiences and of his abiding passion for the American wilderness The four essays in this lavishly illustrated catalogue examine how Cole s first hand knowledge of the British industrial revolution and his study of the Roman Empire positioned him to create works that offer a distinctive even dissident response to the economic and political rise of the United States the ecological and economic changes then underway and the dangers that faced the young nation A detailed chronology of Cole s life focusing on his European tour retraces the artist s travels as documented in his journals letters and sketchbooks providing new insight into his encounters and observations With discussions of over seventy works by Cole as well as by the artists he admired and influenced this book allows us to view his work in relation to his European antecedents and competitors demonstrating his major contribution to the history of Western art **Landscape and Ideology in American Renaissance Literature** Robert E. Abrams,2004 In this provocative and original study Robert E Abrams argues that in mid nineteenth century American writing new concepts of space and landscape emerge Abrams explores the underlying frailty of a sense of place in American literature of this period Sense of place Abrams proposes is culturally constructed It is perceived through the lens of maps ideas of nature styles of painting and other cultural frameworks that can contradict one another or change dramatically over time Abrams contends that mid century American writers ranging from Henry D Thoreau to Margaret Fuller are especially sensitive to instability of sense of place across the span of American history and that they are ultimately haunted by an underlying placelessness Many books have explored the variety of aesthetic conventions and ideas that have influenced the American imagination of landscape but this study introduces the idea of placeless into the discussion and suggests that it has far reaching consequences *The Myth of the Fall in Nineteenth-Century Literature* Linda Freedman,2025-07-15 Why does the myth of the Fall continue to matter in an increasingly secularised world Why do we continue to imagine a point where everything went wrong and why must we imagine that things were once better than they are now Modern political theodicies repeatedly play to the myth of the Fall as empowering human authorship promising to take back control or make America great again The myth of the Fall is so absorbed into western culture that we sometimes don t even notice it s there let alone think about

why and how it has persisted through secularisation It is often pernicious playing on feelings of innate supremacy and lost dominion Linda Freedman shows that it is also creative the first act of disobedience and resistance which set new human stories in motion and gave narrative shape to existence Nineteenth century writers were so steeped in Christian traditions that the Fall remained an ineluctable structure of thought and even those who resisted or tried to secularise its doctrinal orthodoxies tended to affirm its logic It was a political social and cultural force as well as an aesthetic preoccupation a way of reflecting on the limitations and possibilities of art and literature driving innovations in prose poetry and the novel Rethinking narratives of American exceptionalism with transatlantic and anti racist writings Freedman captures some of the most theologically imaginative and aesthetically and politically interesting textures of the Fall in nineteenth century literature The myth of the Fall survives as much more than a judgmental and repressive social mechanism and mattered to people living vastly different lives this is partly due to the adaptability and force of its narrative logic and partly because it gives narrative time the feel of a quest an infinite search for meaning The Fall holds onto the otherworldly and the unworldly It serves as a formal metalanguage a residually and sometimes explicitly religious aesthetic an origin myth of modernity a source for being in time

Trouble in Paradise Alan Wallach,2024-11-04 A collection of highly readable critical essays 1977 2023 by a leader in the field of American social art history Among the subjects Alan Wallach explores are the art of Thomas Cole patronage of the Hudson River School so called Luminism the rise of the American art museum the historiography of American art scholarship and the art market as well as the work of Augustus Saint Gaudens Rockwell Kent Grant Wood Philip Evergood and Norman Rockwell Throughout Wallach employs a materialist approach to argue against traditional scholarship that considered American art and art institutions in isolation from their social historical and ideological contexts

19th-century America: Paintings and Sculpture Metropolitan Museum of Art (New York, N.Y.),John K. Howat,Natalie Spassky,1970 Chiefly illustrated catalog of an exhibition held in celebration of the hundredth anniversary of the Metropolitan Museum of Art held at the Metropolitan Museum of Art from April 16 through September 7 1970 American Paradise Metropolitan Museum of Art (New York, N.Y.),1987 Traces the history of the Hudson River School of American painters shows works by Church Cole and Inness and describes the background of each painting

Sanctified Landscape David Schuyler,2012-04-27 The Hudson River Valley was the first iconic American landscape Beginning as early as the 1820s artists and writers found new ways of thinking about the human relationship with the natural world along the Hudson Here amid the most dramatic river and mountain scenery in the eastern United States Washington Irving and James Fenimore Cooper created a distinctly American literature grounded in folklore and history that contributed to the emergence of a sense of place in the valley Painters led by Thomas Cole founded the Hudson River School widely recognized as the first truly national style of art As the century advanced and as landscape and history became increasingly intertwined in the national consciousness an aesthetic identity took shape in the region through literature art memory and

folklore even gardens and domestic architecture In Sanctified Landscape David Schuyler recounts this story of America's idealization of the Hudson Valley during the nineteenth and early twentieth centuries Schuyler's story unfolds during a time of great change in American history At the very moment when artists and writers were exploring the aesthetic potential of the Hudson Valley the transportation revolution and the rise of industrial capitalism were transforming the region The first generation of American tourists traveled from New York City to Cozzens Hotel and the Catskill Mountain House in search of the picturesque Those who could afford to live some distance from jobs in the city built suburban homes or country estates Given these momentous changes it is not surprising that historic preservation emerged in the Hudson Valley the first building in the United States preserved for its historic significance is Washington's Headquarters in Newburgh Schuyler also finds the seeds of the modern environmental movement in the transformation of the Hudson Valley landscape Richly illustrated and compellingly written Sanctified Landscape makes for rewarding reading Schuyler expertly ties local history to national developments revealing why the Hudson River Valley was so important to nineteenth century Americans and why it is still beloved today Washington Irving's Critique of American Culture J. Woodrow McCree, 2021-06-24 Washington Irving's Critique of American Culture Sketching a Vision of World Citizenship challenges long standing views of Washington Irving He has been portrayed as writing in the 18th century style of Addison and Goldsmith without having much substance of his own Irving has also been accused of being insufficiently American and adrift in an identity crisis The author argues that Irving addressed the American cultural context very extensively he was a writer of substance who articulated an ethic of world citizenship that was found in the philosophy of ancient Greek cynics and stoics This ethic was united with a love of picturesque travel which emphasized variety and texture in experience resulting in an extraordinary affirmation of the value of cultural diversity in the new Republic Irving was in fact a liminal figure straddling Romantic and neoclassical modes of writing and acting The author draws attention to Irving's success as a writer in the pictorial mode Irving also expressed a critique of cultural loss and environmental destruction like that articulated by the artist Thomas Cole The work embraces an interdisciplinary approach where insights from philosophy religion art history and social history shed light on an underestimated writer The John Colet Archive of American Literature, 1980 **Painting Dissent** Sophie Lynford, 2022-09-20 A revelatory history of the first artist collective in the United States and its effort to reshape nineteenth century art culture and politics The American Pre Raphaelites founded a uniquely interdisciplinary movement composed of politically radical abolitionist artists and like minded architects critics and scientists Active during the Civil War this dynamic collective united in a spirit of protest seeking sweeping reforms of national art and culture Painting Dissent recovers the American Pre Raphaelites from the margins of history and situates them at the center of transatlantic debates about art slavery education and politics Artists such as Thomas Charles Farrer and John Henry Hill championed a new style of landscape painting characterized by vibrant palettes antipicturesque compositions and meticulous brushwork Their

radicalism however was not solely one of style Sophie Lynford traces how the American Pre Raphaelites proclaimed themselves catalysts of a wide ranging reform movement that staged politically motivated interventions in multiple cultural arenas from architecture and criticism to collecting exhibition design and higher education She examines how they publicly rejected their prominent contemporaries the artists known as the Hudson River School and how they offered incisive critiques of antebellum society by importing British models of landscape theory and practice Beautifully illustrated and drawing on a wealth of archival material *Painting Dissent* transforms our understanding of how American artists depicted the nation during the most turbulent decades of the nineteenth century *Inventing Destiny* Jimmy L. Bryan, Jr., 2019-09-20 The mythmakers of US expansion have expressed manifest destiny in many different ways and so have its many discontents A multidisciplinary study that delves into these contrasts and contradictions *Inventing Destiny* offers a broad yet penetrating cultural history of nineteenth century US territorial acquisition a history that gives voice to the underrepresented actors who significantly complicated US narratives of empire from Native Americans and Anglo American women to anti and non national expansionists The contributors established and emerging scholars from history American studies literary studies art history and religious studies make use of source materials and techniques as various as artwork religion geospatial analysis interior colonialism and storytelling alongside fresh readings of traditional historical texts In doing so they seek to illuminate the complexities rather than simplify to transgress borders rather than redraw them and to amplify the under told stories rather than repeat the old ones Their work identifies and explores the obscure or obscured fictions of expansion seeking a deeper understanding of the mechanisms of culture creation and recognizing those who resisted US territorial aggrandizement In sum *Inventing Destiny* demonstrates the value of cross disciplinary approaches to the study of the multiple rationales critiques interventions and contingencies of nineteenth century US expansion **A Measure of Perfection** Charles Colbert, 1997 Despite its widespread popularity in antebellum America phrenology has rarely been taken seriously as a cultural phenomenon Charles Colbert seeks to redress this neglect by demonstrating the important contributions the theory made to artistic development **The Early Biblical Landscapes of Thomas Cole (1825-1829)** Ellen Avitts Menefee, 1990 *American Picturesque* John Conron, 2010-11-01 **Art Books** Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of *Art Books* A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists

not represented in the first edition **American Studies** Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of *American Studies An Annotated Bibliography of Works on the Civilization of the United States* published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 *Thomas Cole* Matthew Baigell, 1981 Each of these handsome volumes contains 32 large color plates reproduced with superb fidelity on special paper The informative text and detailed captions will provide inspiration and fresh insight for all who admire great painting Considered the founder of the Hudson River School Cole infused his dramatic portrayals of the American landscape with an aura of grandeur sublimity and moral and religious meaning *Picturesque and Sublime* Tim Barringer, T. J. Barringer, Gillian Forrester, Sophie Lynford, Jennifer Raab, Nicholas Robbins, 2018-01-01 Thomas Cole 1801 1848 is widely acknowledged as the founder of American landscape painting Born in England Cole emigrated in 1818 to the United States where he transformed British and continental European traditions to create a distinctive American idiom He embraced the picturesque which emphasized touristic pleasures and the sublime an aesthetic category rooted in notions of fear and danger Including striking paintings and a broad range of works on paper from watercolors to etchings mezzotints aquatints engravings and lithographs this book explores the trans Atlantic context for Cole s oeuvre These works chart a history of landscape aesthetics and demonstrate the essential role of prints as agents of artistic transmission The authors offer new interpretations of work by Cole and the British artists who influenced him including J M W Turner and John Constable revealing Cole s debt to artistic traditions as he formulated a profound new category in art the American sublime
