Starting Or Buying Your Own Business Or a Franchise Nico Swart,2004-04 An important area of personal financial planning involves the entrepreneurial skill of the investor for starting or acquiring a business In this short book Nico Swart further explains the key

personal financial planning areas and their far reaching positive or negative implications **An Agenda for Sustainable Development Research** Walter Leal Filho, Amanda Lange Salvia, Claudio Ruy Portela de Vasconcelos, 2024-09-20 This book involves establishing a set of priorities and a roadmap that can guide scholarly and practical efforts towards sustainability goals It encourages collaboration across disciplines to address complex sustainability issues that span social economic and environmental domains It also supports the development of robust methodologies for conducting research including quantitative qualitative and mixed methods approaches But despite the importance of and the need for an agenda for sustainable development research many efforts are isolated and thematically disconnected Also it is difficult to find information on how sustainability research is being undertaken and on the wide range of methods being used Against this backdrop and in order to facilitate a broad discussion on the contribution of sustainable development research this book is being produced The book gathers inputs from universities and research organisations working on matters related to sustainable development research in a variety of contexts It also provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Furthermore the book intends to provide a fertile basis upon which universities research centres and practitioners may cooperate more closely in this key area Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how sustainability research may be implementing across a range of disciplines Thanks to its scope and interdisciplinarity this books makes an excellent reading to everyone interested on sustainability research
