**Anesthesia: A Problem-Based Learning Approach** Kirk Lalwani,Ira Todd Cohen,Ellen Y. Choi,Vidya T. Raman,2018-09-17

Linking existing knowledge to new knowledge by presenting it in the form of a case or a problem is a popular and effective educational approach resulting in better retention of the knowledge and improved ability to apply that knowledge to solve real problems This problem based learning PBL method was introduced into medical education at McMaster University in Ontario Canada in 1969 Since then it has been widely incorporated into secondary undergraduate and graduate education in a variety of disciplines worldwide This new volume for the Anesthesiology Problem Based Learning series reviews pediatric anesthesia utilizing the PBL approach Each chapter deals with conditions and problems in pediatric anesthesia practice presented as a case stem with questions to encourage critical thinking followed by an evidence based discussion and multiple choice questions for self assessment Cases were carefully selected to present a broad systems based tour of commonly encountered clinical cases in pediatric anesthesia The book can be used to review an upcoming clinical case or as a PBL tool The Stem Case and Key Questions and Discussion sections can serve as the basis for interactive learning experiences for study groups or as a broad yet in depth clinical review of the subspecialty for the individual learner Self assessment questions can be used as a measure of knowledge acquisition or simply as a question bank to prepare for examinations

**The Institutional Transition of China's Township and Village Enterprises** Hongyi Chen,2017-11-22 This title was first published in 2000 This work provides a new insight into china s township and village enterprises TVEs It views the governance structure of TVEs as effectively combining the comparative advantage of local government officials in external management and of dual firm managers in internal management to overcome imperfections in both market and government during the transitional period Through extensive field investigation analysis and case studies this work shows that the governance structure of TVEs has been evolving during the past fifteen years To adapt to the changing environment TVEs have continuously innovated firm contractual form from a government official dominant fixed wage form to a partnership style profit sharing form then to a privatization oriented fixed rent form This work develops a complete model to explain how the central government s partial reform efforts in market liberalization have become the driving force to induce the contractual form innovation and to explicate how heterogeneity in firms technical structures and in local economic settings may affect local government s decisions regarding contractual form innovation Using the author s unique data set the model simulations predict that the development in the whole market system will result in the diffusion of contractual form innovation and lead to an induced privatization in this sector The following empirical studies show this to be a powerful prediction and the progress toward such induced privatization can be expected in China in near future This research work provides a rich empirical study on China s institutional transition towards a market system It explains how a bottom up endogenous instead of top down exogenous property rights reform can be realized in transitional economies This work will serve as a valuable reference for researchers and students in economics economic development and institutional economics
