Animal Rights, Human Wrongs Tom Regan, 2003 What gives an animal rights What makes product testing on animals wrong In

Animal Rights Human Wrongs prominent activist and philosopher Tom Regan skillfully puts forth the argument for animal rights through the exploration of two questions central to moral theory What makes an act right What makes an act wrong Taking into consideration moral theories such as contractarianism utilitarianism and Kantian ethics Regan provides the theoretical framework that grounds a responsible pro animal rights perspective and ultimately explores how asking moral questions about other animals can lead to a better understanding of ourselves The necessity of making a transition from moral theory to moral practice becomes startlingly clear as Reagan examines the commonplace everyday choices that would be affected by believing in a moral theory that affirms the rights of animals For the many people who have ever wondered what difference does it make if animals have rights Animal Rights Humans Wrongs provides a provocative and intriguing answer For a discussion of animal rights tailored to a more general audience see Empty Cages Facing the Challenge of Animal Rights Rowman Littlefield 2003
