

Self-Introduction Scholarship Essay

My name is Abigail Lopez. I am a student at Southeastern College completing an associate's degree in science and planning on transferring to a four-year college or university. My educational aspirations consist of acquiring a bachelor's degree in any biological or health science that would assist me in pursuing a medical career as a doctor. On the other hand, my career vision is to one day be able to provide affordable health care to marginalized communities in the United States. However, I am certain that if I do not complete my college degree I could never have the opportunity to achieve my career goals. I decided that I will attain a career as a doctor since my passion has always been assisting others and trying to improve their quality of life. Therefore, I think that pursuing such a career will provide me the opportunity to help improve the community's health quality conditions and learn about their medical needs. After becoming a certified doctor, I want to specialize in oncology, the study of cancer, and add my knowledge to the cancer research field.

Furthermore, I want to contribute back to undeserved populations in the U.S. that struggle every day to sustain a family, and who do not have as much access to medical assistance as other privileged groups. The first health project I want to accomplish throughout my career as a doctor is to establish a free clinic where affordable medical assistance can be provided regardless of the patient's immigration status. The diverse health services would include free doctor consultations, low-price or free medication, and nutritional classes to prevent the presence of diabetes or heart disease. I also intend to provide an interpreter for patients in case they do not speak English and establish a financial assistance program to help patients who are not able to pay for any type of surgery that needs to be performed. The second biggest career goal that I want to accomplish is to establish a non-profit organization where I can create internships for medical school students around the U.S., and allow them to travel to isolated communities around the world to provide free medical services. I also want to provide nutrition education to support these marginalized communities, especially indigenous groups from Latin American countries. This will help contribute to the physical development of kids and offer a solution to malnutrition. I know that all of my goals will remain dreams if I do not complete my medical degree. Therefore, I am committed to working hard in school and looking for opportunities that could help me make my goals a reality.

You Shall Know that I Am Yahweh John F. Evans, 2019-05-15 The recognition formula you they shall know that I am Yahweh is repeated more than seventy times in the book of Ezekiel And yet surprisingly this refrain has not been analyzed in detail in recent research In this study John F Evans attempts to uncover the literary and theological intent of the recognition formula in Ezekiel by comparing it with other instances of the phrase found elsewhere in the Bible Complementing his analysis of the recognition formula in

Ezekiel Evans examines its use in Deuteronomy 1 Kings Isaiah Joel and in particular Exodus In addition to some strong continuities between the formula in Exodus and Ezekiel he finds a jarring disjunction in Ezekiel the prophecy repeatedly declares that Israel shall know that I am Yahweh in judgment while elsewhere in Scripture the formula typically sounds a positive note when spoken to God's covenant people Recent years have witnessed a renewed interest in the book of Ezekiel especially as a book that reflects the experience of Jews in exile as parallel to their captivity in Egypt prior to the exodus Biblical scholars and students interested in the theology of exile and the theological reaction to the destruction of the Judean state in 586 BCE will find this book enlightening and useful
