Video Marketing for Libraries Heather A. Dalal, Robin O'Hanlon, Karen L. Yacobucci, 2017-08-01 Today's libraries need to market their resources and services more than ever. Thanks to the proliferation of digital information, patrons can easily find information from other sources without recognizing the usefulness and relevance of their library. Libraries have been producing their own promotional videos with success, strengthening their relationships with their users and gaining new audiences. You can increase awareness of your library's resources and services by producing your own videos. *Video Marketing for Libraries* provides step-by-step instructions on how to produce videos designed to market your library and strategies to assess their impact. This book will guide you through gaining internal support, crafting a clear message, building the library's audience, writing storyboards and scripts, casting and rehearsing actors, filming and recording voiceover, editing, publishing, promoting, using online tools, animation software, and assessing the efforts. **The Complete Guide to Low-Budget**

Feature Filmmaking Josh Becker, Bruce Campbell, 2006-02-01 Most books about film production assume that you have an idea and a script to shoot. Most screenwriting books are geared to how to write a script that you can sell to Hollywood, as though the authors of these books had the slightest clue and do not take into consideration that you might be shooting the script yourself, possibly with your own money. This book is about how to write a script properly that you can rationally shoot, how to shoot it, how to finish it, how to sell it, and also how to get it shown. *The Digital Projects Playbook* John

Arthur, 2024-09-17 Students in today's classrooms live in a digital world. Tap into the unique opportunities it offers with author John Arthur's collection of resource-packed digital projects designed to leverage students' digital skills and support their academic, creative, and cognitive development. The author guides teachers with rubrics, a list of digital tools, and step-by-step processes for producing each project from start to finish. With this book, classroom teachers will encourage students' creativity and natural skill sets. Access rubrics, templates, checklists, and tips for each digital project. Understand the importance of media literacy and artificial intelligence. Receive step-by-step production processes for all the digital projects. Learn the research connecting digital projects and students' cognitive development. In the Classroom** Daniel R. Greenwood, 2003-03-12

Today's students are attracted to video and readily engage in any project that incorporates the medium. Digital video is easier to manipulate and much less expensive than analog video. Students can create video content, and the software can be taught in less than one hour. There is great potential to employ student-produced video as an educational tool, and this book explains and instructs teachers how to exploit this potential. This comprehensive work, divided into four sections, covers all aspects of video production, including foundation concepts, the video production process, equipment review, and an appendix.
