

Essay #2: Observation

The observation essay is “an essay that draws on the writer’s observations of people, places, and/or events to support the writer’s claims about what these observations mean.” – *Student Guidelines*

Preparation

This preparation for writing this essay is a two-tier assignment. **First**, you will closely observe another person as they use an alternative literacy in the environment that they would be most likely to use this literacy (e.g., a gamer at home, playing his game system; a cheerleader at practice, interacting with other cheerleaders and learning routines; a waitress at work in a restaurant) **Second**, after your observation, you are to interview that person about the impact of that type of literacy in their lives. You want to consider how they use it (e.g., work? hobby? family? friends?), how long they’ve used it, its personal value, if it has helped them become more proficient in academic literacy, and if so, how.

Writing

In your essay, you should detail who, what, and where you observed and incorporate what you feel are the most interesting/important parts of your interview. You should not include everything your subject says. **Your thesis should tell me the importance of this alternative literacy in this person’s life, whether it has helped them with academic reading and writing or otherwise, and the rest of your paper should support this assertion based on what you saw and heard from the subject.** You should make a point, not just give a play-by-play of your observations. Use what you learned about yourself and your own familiar literacy through Essay #1 to provide a framework for examining someone else’s alternative literacy.

Format

This essay should be 3-4 double-spaced pages and include a title. Use 12-point Times New Roman font and one-inch margins.
