for FVC1 V4 and D080 V3**

**Unit 2 Globalization- Module 1: Political, Economic, and Legal Systems (Lessons 1-6)**

**1. What is globalization?**

**Answer:** Globalization is when international integration arises from the interchange of world views, products, ideas, and other aspects of culture.

**2. What opportunities to businesses are brought by globalization?**

**Answer:** Firms have benefitted from globalization by being able to specialize and focus more on research and development, by having access to a broader market, and by gaining access to cheaper labor.

- It has allowed corporations to outsource manufacturing and service jobs from high-cost locations to lower cost locations, where corporations can pay workers lower salaries and provide fewer (or no) benefits.

**3. What are the economic, political, and cultural effects of globalization?**

**Elaborate on each of the aspect**

**Answer:**

**Cultural Globalization:** refers to the transmission of ideas, meanings, and values around the world that extends and intensifies social relations.

- Formation of shared norms and knowledge
- There is a decrease in the uniqueness of once-isolated communities.
- Anti-globalization movements have formed to the defense of once isolated countries

**Political Globalization:**

- May reduce the importance of nation-states (negative).
- Formation of international/regional organizations(positive) WTO, G8, EU, ICC.
- Some countries have embraced isolationist policies due to globalization (North Korea)
- (NGOs) influence public policy, including humanitarian aid and developmental efforts.

**Economic Globalization:** refers to the widespread, international movement of goods, capital, services, technology, and information.

- It is the increasing economic integration and interdependence of national, regional, and local economies across the world through an intensification of the cross-border movement of goods, services, technologies, and capital.

Economic globalization primarily comprises the globalization of production, finance, markets, technology, organizational regimes, institutions, corporations, and labor.

- More trade, investment, information tech, and faster economic development
- Benefits the rich at the expense of the poor, manufacturing job loss in developed countries, environmental damage, unethical practices of labor.

**4. What are the arguments for and against globalization from country's perspective?**

**Answer:** Globalization has resulted in a widespread sharing of ideas.

- Advocates for globalization feel that this sharing exposes people to more cultures and ideas, making them more tolerant.
- Opponents to globalization worry that cultures are becoming homogenized, especially in the spread of Western culture throughout the world.

**5. What are the 5 stages of entering a global market? Explain each stage.**
