

Community Health Nursing Assessment

Introduction

In an effort to promote the health needs within a community, a successful community health nurse (CHN) must focus on the entire population. In order to accomplish this task, the CHN utilizes a scientific approach to determine the priority population focused health needs for the community. According to Nies & McEwen (2011), a population focus involving an assessment of the community is a primary tool utilized in order to develop planning, interventions, and evaluations for the community at large. The purpose of this paper is to determine a priority health problem of a specific community based on demographic data, epidemiological data, and a windshield survey of the community. Rockport is a Texas Gulf Coast community located on the Live Oak Peninsula between Copano and Aransas Bay on State Highway 35. Named for the rock ledge that lies underneath the coastal shore, Rockport was founded after the Civil War as a cattle slaughtering, packing, and shipping port. This industry continued until the late 1800s when boatbuilding and fishing began to develop into important industries. After the railroad came to Rockport, tourism and the resort business began to thrive. After the turn of the century, a major hurricane almost destroyed the entire community.

Recovery from this devastating natural disaster was slow but by the late 1920s, the community once again began to thrive. At that time, shrimping became a major industry within the community. Throughout the next four decades, the community continued to grow with the main sources of commerce remaining in the areas of fishing, shrimping, and tourism. Today Rockport is a favorite vacation spot known as the Texas Riviera. Major sources of commercial life today in Rockport are the restaurant and motel industries. Demographic and Epidemiological Data.

The estimated population of Rockport is 8,846 compared to 25,674,681 for the state of Texas. The age breakdown for the population is 5% under the age of 5, 17.9% under the age of 18, 28.3% over the age of 65 and 51.7% female. The state of Texas is 7.7% under the age of 5, 27.3% under the age of 18, 10.3% over the age of 65 and 50.4% female. Caucasian is the largest ethnic group in Rockport at 88.7%, African-American at 1.5%, American Indians at 0.7%, Asian at 2.4%, Native Hawaiian at 0.1%, and Hispanics at 20.8%. The state of Texas lists Caucasians at 70.%, African-Americans at 11.8%, American Indians at 0.7%, Native Hawaiian at 0.1%, and Hispanics at 45.3%. Currently, 14.7% of the population over the age of five in Rockport does not speak English in the home setting, 87% of the population over the age of 25 is a high school graduate, and 32.3% over the age of 25 has a bachelor's degree. In comparison, the state of Texas lists 34.2% over the age of five that do not speak English in the home, 80% over the age of 25 with a high school diploma, and 25.8% over the age of 25 with a bachelor's degree.
