

Capstone nursing

A **capstone nursing** task is a formal paper during students' final year of study. At the conclusion of nursing school, students must write a research paper, an evidence-based article, an evaluation of results, an analysis of a program or policy, a case study, or a survey.

Depending on your field, you might be asked to address issues related to nursing practice in your capstone paper. You will frequently need to use abilities from evidence-based practice to solve difficulties.
