**Working with indigenous knowledge** Fhumulani M. Mulaudzi, Rachel T. Lebese, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research **Proceedings of the 10th Focus Conference (TFC 2023)** Manyane Makua, Mariam Akinlolu, Mashango Sithole, Phiwayinkosi Gumede, Cebo Nyondo, Ntombikhona Khuzwayo, Mandlenkosi Mhlongo, 2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education s role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent **Empty Hands, A Memoir** Sister Abegail Ntleko, 2015-09-01 Empty Hands is the inspiring memoir of Zulu nurse and healthcare activist Sister Abegail Ntleko Growing up poor in a rural village with a father who didn t believe in educating girls against seemingly insurmountable odds Sister Abegail earned her nursing

degree and began work as a community nurse and educator dedicating her life to those in need Her story tells us says Desmond Tutu who wrote the foreword to the book what a single person can accomplish when heart and mind work together in the service of others Overcoming poverty and racism within the apartheid South African system she adopted her first child at a time when it was unheard of to do so And then she did it again and again In forty years she has taken in and cared for hundreds of children who had nothing saving babies many of them orphans whose parents died of AIDS from hospitals that were ready to give up on them and let them die Empty Hands describes the harshness of Ntleko s circumstances with wit and wisdom in direct beautifully understated prose and will appeal not only to activists and aid workers but to anyone who believes in the power of the human spirit to rise above suffering and find peace joy and purpose Ntleko s story which she tells in simple language is inspiring and moving She neither dwells in nor dramatizes the hardships she has faced preferring instead to focus on fill ing her hands with love and then spend ing all that love until her hands are empty again A brief genuine heartfelt memoir of an awe inspiring life Kirkus Reviews      *Vocational Education and Training Through Open and Distance Learning* Louise Moran,Greville Rumble,2004-08-02 Conventional apprenticeships and older methods of professional training are not providing enough skilled workers governments companies and colleges are now using open and distance learning to fill these gaps Published in association with the Commonwealth of Learning this unique review provides detailed analysis of worldwide experiences of vocational training and distance education It looks at recent policy and practice at different levels from transnational programmes and national policies to institutional and programme models Offering guidance on how distance education and new technologies are being used to support vocational education and training this book will help senior institutional managers and policy makers to understand and appreciate the role distance education can play in increasing skills levels in young people and the existing workforce the challenges in using educational technologies and distance education to deliver vocational education and training how to devise effective policies to meet these challenges

Malan,P. S. Hattingh,1976 Swart tuislande in Suid Africa      **Recalibrating teacher training in African higher education institutions** Sifiso Sibanda,Gideon (Deon) P. van Tonder,Washington T. Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened

the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimaged to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark

Promoting Qualitative Research Methods for Critical Reflection and Change Wang, Viktor, 2021-04-16 The philosophical foundation of emancipatory knowledge lies in critical theory In this paradigm instrumental and communicative knowledge are not rejected but are limited If we do not question current scientific and social theories and accepted truths we may never realize how we are constrained by their inevitable distortions and errors Without the possibility of critical questioning of ourselves and our beliefs such constraining knowledge can be accepted by entire cultures The research paradigm that is relevant for constructing this kind of knowledge is the critical paradigm Data are always qualitative and have specific methods of research Quantitative research unquestionably has a place and is fundamental to scientific advances but qualitative research delves into what it is to be human Through qualitative research we gain insight into communicative knowledge its rich nature and the mechanisms by which communicative knowledge is formed and interpreted Qualitative research enables the necessary exploration and critical analysis of social systems and uncovers and facilitates critical reflections on the inevitable assumptions which shape social behavior and interaction thereby stimulating and empowering change Promoting Qualitative Research Methods for Critical Reflection and Change provides readers with a comprehensive array of qualitative research methods which can be implemented in a variety of contexts for a variety of purposes The chapters explore the impact uses and methodologies for qualitative research across various fields of research This book is ideal for practitioners researchers academicians and students interested in the use of qualitative research methods

Family Dynamics, Gender and Social Inequality During COVID-19 Nina Weimann-Sandig, Ronald Lutz, 2024-03-11 This book critically analyzes both the negative and positive impacts of the Coronavirus pandemic focusing on changes in families gender developments and the evolution of social inequality structures The Corona pandemic with its unprecedented restrictions on contact has meant that families have been challenged in their functioning in a very special way International studies show that socioeconomic factors such as education income but also the geographic center of life of families and women in particular had an important influence on the management of the pandemic Despite all negative side effects of the Corona pandemic there were nevertheless also innovative impulses especially in the field of social work particularly work with families The book's 18 chapters organized in six sections highlight not only short term changes but also longer term developments that either require a corresponding concept of measures or action or can be evaluated as drivers of innovation in the pandemic Part I Introduction Part II Family Dynamics Part III Child Well being Part IV Social Work with Children and Families Part V Gender and COVID 19 Part VI Conclusion The special feature of the volume is its global perspective Authors from different countries describe changes and developments on these topics and make clear what profound effects the pandemic had on families social inequality structures and gender specific situations The anthology does not comprehensively reflect international perspectives Rather it leaves it up to readers to compare the developments in the respective countries with their own country of origin from a comparative cultural perspective In this way ideas for future
