Books Related to the Social Studies in Elementary and Secondary Schools United States. Education Office, 1969 **The New Politics of the Textbook** Heather Hickman, Brad J. Porfilio, 2012-10-29 In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America there has been surprisingly little research on the impact of textbook content on students The contributors of this volume and its partner *The New Politics of the Textbook* Problematizing the Portrayal of Marginalized Groups in Textbooks guide educators school administrators academics and other concerned citizens to unpack the political social and cultural influences inherent in the textbooks of core content areas such as math science English and social science They urge readers to reconsider the role textbooks play in the creation of students political social and moral development and in perpetuating asymmetrical social and economic relationships where social actors are bestowed unearned privileges and entitlements based upon their race gender sexuality class religion and linguistic background Finally they suggest ways to resist the hegemony of those texts through critical analyses critical questioning and critical pedagogies Elementary Social Studies S.G. Grant, Bruce A. VanSledright, 2014-03-14 Organized around four commonplaces of education learners and learning subject matter teachers and teaching and classroom environment *Elementary Social Studies* provides a rich and ambitious framework to help social studies teachers achieve powerful teaching and learning results By blending the theoretical and the practical the authors deeply probe the basic elements of quality instruction planning implementation and assessment always with the goal of creating and supporting students who are motivated engaged and thoughtful Book features and updates to the third edition include New chapter on classroom assessment that outlines and compares existing assessment strategies contextualizes them within the framework of state standards and articulates a constructivist approach that moves away from traditional high stakes testing towards more meaningful ways of evaluating student learning New chapter that highlights and explains key elements of the Common Core State Standards for English Language Arts and shows how the incorporation of critical ELA instruction into the social studies curriculum can foster more ambitious teaching and learning Real classroom narratives that introduce each chapter and provide in depth access to teaching and learning contexts Practical curriculum and resource suggestions for the social studies classroom End of chapter summaries and annotated teaching resources *Handbook of Research in Social Studies Education* Linda S. Levstik, Cynthia A. one or more of these criteria research activity since the last Handbook that warrants a new analysis topics representing a major emphasis in the NCSS standards and topics reflecting an emerging or reemerging field within the social studies The volume is organized around seven themes Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must have resource for all beginning and experienced researchers in the field **Research in Education**,1974 **Resources in Education** ,1999-04 Every Book Is a Social Studies Book Jeannette Balantic,Andrea S. Libresco,Jonie C. United States. Civil Aeronautics Administration,1947 **Interculturalism, Society and Education** ,2010-01-01 In no part of the world today is the concept of intercultural exchange a novelty and in many parts of the world it has even been a long tradition Nevertheless recent globalization forces have combined to accelerate many aspects of migration and intercultural confrontation As a result we see an emerging world society in which intercultural mixing and conflict are salient characteristics rather than being exceptional situations or embryonic phases of societal development The need for intercultural education and for intercultural dialogue in various forms has become universal All people have an obligation to participate in and take responsibility for world peace balanced sustainable development and democratic dialogue to create the capacity to live together Persistent and increasingly complex patterns of population movement with all of the societal ramifications that accompany them demand consideration of ways in which different societies respond to issues of intercultural education and dialogue both historically and currently Interculturalism Society and Education contains contributions that explore comparative and international case studies ranging from accounts of educational problems impacting specific immigrant groups in Europe socio educational programs and projects in Africa and Asia comparative

analyses of citizenship education issues in selected countries and a global overview of different patterns of the interculturalism society education nexus This volume offers a sampling of the multiplicity of intercultural forms around the world useful for policy makers and educators across the spectrum of institutions and organizations that strive to open paths for positive intercultural exchange through education **Improving Social Studies Instruction** National Education Association of the United States. Research Division,1937 *Nationalism and History Education* Rachel Hutchins,2016-02-26 History education by nature transmits an official version of national identity National identity is not a fixed entity and controversy over history teaching is an essential part of the process of redefining and regenerating the nation France and the United States have in particular experienced demographic and cultural shifts since the 1960s that have resulted in intense debates over national identity This volume examines how each country s national history is represented in primary schools social studies textbooks and curricula and how they handle contemporary issues of ethnicity diversity gender socio economic inequality and patriotism By analyzing each country separately and comparatively it demonstrates how various groups including academics politicians and citizen activists have influenced education and how the process of writing and rewriting history perpetuates a nation Drawing on empirical studies of the United States and France this volume provides insight into broader nationalist processes and instructive principles for similar countries in the modern world *A Selected and Annotated Bibliography of Recent Air Age Education Textbooks* United States.
