Nuovo Manualetto Di Linguistica Italiana:

Nuovo manualetto di linguistica italiana Maurizio Dardano, 2017 *Manuale di linguistica sarda* Eduardo Blasco Ferrer, Peter Koch, Daniela Marzo, 2017-07-10 Oltre un'introduzione dettagliata al contesto storico sociale della situazione linguistica in Sardegna il volume contiene descrizioni sincroniche e diacroniche di tutti i settori dei sistemi linguistici sia delle varietà sarde in senso stretto che delle varietà alloglotte dell'isola. Questo Manuale costituisce cioè un lavoro di riferimento obbligato per chiunque si occupi della lingua e della linguistica sarda. **It's different with you** Nicole Baumgarten, Roel Vismans, 2023-09-15 This book is a collection of studies about forms of address in the world's languages with a focus on contrast and difference. The individual chapters highlight inter and intralinguistic variation in the expression of address and its sociocultural functions across media registers, geographical contexts and time in more than 15 languages. The volume showcases the variety of approaches that exists in current address research including the breadth of contrastive methodologies harnessing surveys and questionnaires, focus group discussions, corpus linguistics, discourse and conversation analysis to offer complementary perspectives on culture-specific address practice. This volume is for students and researchers of address and social interaction in a range of disciplines in the humanities and social sciences including various sub-disciplines of linguistics such as contrastive, variational and intercultural pragmatics, sociolinguistics and morphology and intercultural communication as well as experts in individual languages and qualitative sociologists. **Manual de linguística portuguesa** Ana Maria Martins, Ernestina Carrilho, 2016-09-26 This Manual provides a general yet detailed account of the current research in Portuguese linguistics by combining overview chapters and in-depth analyses of selected topics. It integrates diachronic and synchronic standard and dialectal adult grammar and L1 acquisition data and offers comprehensive information on specific features of Portuguese using the methods and insights of present-day linguistic research. The overview chapters feature linguistic fields that significantly developed over the past decades in the context of research on Portuguese and language contact: prosody, the computational lexicon, forensic phonetics. The chapters covering particular topics in syntax, semantics and phonology deal with new empirical data and current analyses of well-known features of Portuguese such as the inflected infinitive, the pattern of clitic placement, the subjunctive, the reduction of atonic vowels as well as newer issues: null subjects, complex predicates, the answering system, some dialectal phenomena. The volume will be unique as a state-of-the-art collection of papers conceived to be used as a Manual of Portuguese Linguistics in the academic context. The individual contributors rank among the best-known experts in the field. **Tradurre dal greco e dal latino** Chiara Riccardi, 2025-06-04 T00:00:00+02:00 Quando si di fronte a un testo antico scritto in greco o in latino raramente si pensa ad esso come a un testo appunto. Un testo arrivato fino a oggi tramandato attraverso un lungo e più o meno tortuoso percorso e che ora appare agli occhi del lettore come scritto in un determinato modo e non in un altro con quelle parole e non con altre predisposte in quell'ordine e non in un altro per il concorrere di molteplici fattori filologici, linguistici

Dieses Handbüchlein soll Hinweise auf diese Themen geben, indem es versucht, auch über Beispiele aus der griechischen und lateinischen Literatur gute Beispiele zu geben, um die Übersetzung von Texten aus der Antike zu erleichtern und die Aufmerksamkeit des Lesers auf linguistische Aspekte zu lenken, die oft übersehen werden, aber von größter Bedeutung für die Verstärkung der eigenen Textkompetenz am Ende sind, um einen Text zu liefern, der so korrekt wie möglich ist. Dieses Buch widmet sich dem Sprachvergleich dieser Ausdrucksklassen im Deutschen und Italienischen, die ausgehend von ähnlichen Voraussetzungen divergente diachrone Entwicklungen repräsentieren.
