Dean School of Community Health and Policy, Dr. Kim Sydnor, Interim Director of the Nursing Program, Dr. Mamie Montague in absentia, faculty and staff of the school of community health and policy, graduating students, friends and family – Greetings!

I feel honored to speak here today at the nursing pinning ceremony of the Class of 2014. I will like to begin by saying congratulations to you, class of 2014! You deserve that round of applause. I know it has not been an easy journey because, as you might have suspected by now, I've been there! You have gone through a tedious academic and professional journey, one that can only be successfully completed through hard work, diligence and determination. The nursing curriculum is a very intense and elaborate curriculum. Yet, through thick and thin and throughout its joy and the challenges, you did it anyway! So I say good job, and congratulations!

Here we are today at your pinning. The nursing pinning is a solemn occasion dated as far back as the 12<sup>th</sup> century when the Knight Hospitallers were honored with a Maltese pin for caring for injured soldiers; back to 1860 when Florence Nightingale was honored with the Red Cross pin for the great nursing work she did in the war in Crimea; and back to 1880 when a class of nurses at the Bellevue Hospital School of Nursing in New York were the first to be pinned on graduation. So, class of 2014, this is your time. It is an occasion to honor you also, for the successful completion of the first and major part of your education as professional nurses. This ceremony is a rite of passage to symbolize where you went, and to declare with you, your readiness and passage into the world to care for humanity in a professional manner. Every time you wear the pin, you remember the faculty, the staff and your colleagues of the Morgan State University nursing program that were part of your journey and your professional life story. The pin reminds you that, from now on, your mission is three-in-one - to care, to advocate and to lead. In other words, you are now a care provider to your patients, an advocate for your clients, and a leader in any setting you might find yourself.

Charles W. Chesnutt: Essays and Speeches Joseph R. McElrath, Jr., Robert C. Leitz, Jesse S. Crisler, 2001-12-01 Charles W. Chesnutt 1858-1932 has been considered by many the major African American fiction writer before the Harlem Renaissance. This book collects essays he wrote from 1899 through 1931, the majority of which concern white racism and political and literary addresses he made to both white and black audiences from 1881 through 1931. Michigan Nurses Association Michigan Nurses Association, 2004-01-01 Michigan Nurses Association The history from 1904 to 2004. It Happened in Manhattan Dorothy A. Campbell, 2017-04-20 The scam took place at a vulnerable time and place in the author's life. Have you ever been scammed by a con artist? How did you find out you'd been duped and what happened? Do you think you are too smart to fall for a scam? Read this book. The con artists steal from you by sneaking through your emotions instead of through your window. This book will explore a brief history of the author and how she encountered scamming for the first time. Readers will travel with her and the con artists until they set her up for the kill. Readers will also experience how she took them home in the presence of her four young children. Under the spell of the con artists she placed herself and her family in a dangerous situation. Read along and witness the strategies she used to escape from her captives. Even though she did manage to escape, she was left traumatized for life. The author asked the question why me while it was still fresh in her mind. She wanted to write a book about the scam. She couldn't because life got in the way. She was left living in fear before she was able to move away from New York City. Finally, in 1976, she moved to Sumter, South Carolina, where she got the surprise of her life. She felt like she had moved to a Third World Country. She had to adjust to living in the south. She had to adjust to many traumatic changes during her Golden Years. She managed to survive, but it wasn't easy. There came a time in her life when she lost five significant members in her family and a close confidant. After that, she lost her home in a fire in the year 2000. When things couldn't get any worse, she had to file bankruptcy in order to save her new home. She knew there was a God because she survived to tell the story. Over the years, life and stress took a toll on her. God brought some serenity to her life in 2014. Since scamming is a major problem in society today, a friend of the author will be sharing a recent scam in her memoir. Hope you enjoy it. It Happened in Manhattan is a memoir about a scam that took place on a cold morning in October of 1972.

*Nursing, Physician Control, and the Medical Monopoly* Thetis M. Group, Joan I. Roberts, 2001-10-03 Nursing, Physician Control, and the Medical Monopoly: Historical Perspectives on Gendered Inequality in Roles, Rights, and Range of Practice. Thetis M. Group and Joan I. Roberts. A history of physicians' efforts to dominate the healthcare system. Nursing, Physician Control, and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare, often by subordinating nurses, their only genuine competitors. Attempts by nurses to reform many aspects of healthcare have been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system, often to the detriment of patients' health and safety. Thetis M. Group and Joan I. Roberts first review the activities of early women

healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician's assistant countered by nursing's development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare system
