Mahoney,James Ryan,Adam J. Brooks,C. William Schwab,2005-12-27 Ballistic Trauma A Practical Guide provides a concise guide to the

clinical and operational issues surrounding the management of the ballistic casualty The book crystallizes the knowledge and experience accrued by those dealing with ballistic trauma on a regular basis and extends this to those who have to manage these patients on an occasional basis only This book is aimed at all medical and paramedical personnel involved in the care of patients with ballistic injury It will be especially relevant for consultants and senior trainees in surgery anesthesia and emergency medicine who are likely to be involved in the management of these unique injuries It will be an essential reference for pre hospital care providers and nurses working in the emergency room and intensive care Military surgeons and medical and nursing staff on deployment in regions of conflict will find the book a valuable resource *South African Health Review* ,1996

Recalibrating teacher training in African higher education institutions Sifiso Sibanda,Gideon (Deon) P. van Tonder,Washington T. Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark Selected Topics in Midwifery Care Ana Polona Mivšek,2019-02-08 Midwifery across the globe faces different issues In some countries the autonomy of the profession is a tradition while in some societies midwives struggle to practice autonomously the basic competencies In one part of the world the medicalisation of childbirth is the main issue preventing the natural processes of pregnancy and childbirth to flow at their own pace while in other parts of the world midwives struggle with lack of resources to provide safe midwifery care The authors of this book practice midwifery in different cultures and within different social contexts They have to deal with different obstacles and seek solutions to diverse problems With their contributions they offer an insight into their thinking their dilemmas and the problems of midwifery practices in their countries However despite different backgrounds they all have in common a uniform goal a wish to offer women optimal midwifery care and to improve midwifery services *Aro - Healing Touching Lives - Theories, Techniques and Therapies* Lynette Barnard,2014-07-14

**Working with indigenous knowledge** Fhumulani M. Mulaudzi, Rachel T.

Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

**The South African Development Directory** ,2001 Juta's Manual of Nursing Anne Young,2005-04 A focus on the legal aspects of medicine ethical issues and community based work distinguishes this education manual for nurses from previous volumes in the series Discussion questions and self assessments are included in each chapter whose subjects include care for women with special needs disabled clients the elderly and patients with HIV AIDS or a malignant disease

**Geographies of Health and Development** Rachel Bezner Kerr,Isaac Luginaah,2016-03-03 The geographies of health and development is an emerging sub discipline tying in with many of the conceptual theoretical and practical components of other disciplines working in health health care economics and international development Spatially and theoretically grounded in geography this collection offers a fresh perspective on the dialectic relationships between health and development Health problems in a developing context take on much higher rates of prevalence as a result of the varied cultural structural and economic vulnerabilities of the people they impact This book begins by exploring some of the circumstances surrounding the distinctive health inequities currently facing many developing countries including malaria maternal mortality and HIV AIDS This is followed by a discussion of how matters of physical access and human resource issues and perhaps most importantly the challenges of financing together shape the access and utilization of health care Examining how the environment interacts to influence the health of the people that live there the next section includes discussion around challenges of food in security and the importance of clean and uncontaminated water for health Finally the book explores the influence of globalization on health specifically within the urban environment against the backdrop of global health policy

**Debates of the National Council of Provinces (Hansard)** South Africa Parliament (1994- ). National Council of Provinces,2001 *Open Learning as a Means of Advancing Social Justice* Tabisa Mayisela,Shanali

Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser s theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa

*Simulation Scenarios for Nursing Educators, Third Edition* Suzanne Hetzel Campbell, Karen Daley, 2017-10-28 Second Edition was a winner of the AJN Award Unique to this book and what sets it apart from other books on simulations and clinical scenarios are the personal experiences that the authors bring to the chapters The authors passion enthusiasm and inspiration are truly reflected and demonstrated in each chapter Authors talk about lessons learned teaching strategies and in depth research Key highlights in the book include the practice application of how to develop implement and evaluate clinical simulations in your nursing program The authors make understanding simulation pedagogy an easy journey and one that is exciting that educators will want to try and embrace even when there is hesitation and uncertainty Pamela R Jeffries PhD RN FAAN ANEF Professor Dean George Washington University School of Nursing From the Foreword When employed as a substitute for real clinical time simulation scenarios have proven effective in bridging the gap between theory and practice Written by educators for educators this book provides all the knowledge skills and tools needed to make simulation feasible enjoyable and meaningful for students In this edition there are 25 new chapters 20 of them scenarios for all levels and specialties and 11 of those representing interprofessional education and team training This acclaimed text for nursing faculty provides detailed step by step guidance on all aspects of clinical simulation Each scenario is broken down into objectives pre scenario checklists implementation plans evaluation criteria debriefing guidelines and recommendations for further use Replete with diverse scenarios this comprehensive resource covers geriatric pediatric trauma obstetric and community based patient scenarios Chapters cover all levels of nursing students from pre licensure to doctoral level and contain the authors own advice and

experiences working in simulation around the globe All scenarios have been updated to adhere to the new best practice simulation standards for design facilitator and participant criteria interprofessional criteria and debriefing processes A template for creating scenarios spans the text and includes student preparation materials forms to enhance the realness of the scenario and checklists for practice assessment and evaluation The revised edition now includes scenarios easily adaptable to an instructor s own lab an international perspective and a section on graduate nursing education and eleven new interdisciplinary clinical scenarios New to the third edition 20 brand new scenarios in anesthesia midwifery pediatric disaster and other specialty focused situations plus five new chapters Updated to encompass new simulation pedagogy including best practice standards New scenarios easily adapted to an instructor s own lab Integrating disability into nursing education with standardized patients and the use of IV simulations Interprofessional and international scenarios focused on areas of global concern obstetric hemorrhage neonatal hypoglycemia deteriorating patients A new section on how to write like a nurse in clinical simulation environments Teaching and evaluating therapeutic communication with a review of instruments for assessment Key Features Includes information on how to integrate simulation into curricula Addresses conceptual and theoretical foundations of simulation in nursing education including an expanded chapter on the Framework for Simulation Learning in Nursing Education Includes a wide variety of practical scenarios in ready to use format with instructions Provides a template for scenario development Delivers recommendations for integration of point of care decision making tools Offers opportunities for enhancing complexity incorporating interprofessional competencies and debriefing guidelines Provides insight into pedagogical intergration of simulation throughout every aspect of the nursing curriculum with scenarios mapped to North American standards and the NCLEX RN Blueprint Includes details on learning lab and staff development from fundraising and building a lab Ch 6 to placement of AV Ch 7 to faculty development Ch 5 and self assessment for certification and accreditation Ch 54 A trauma informed approach to women s health Ch 33 Scenarios with authors from North America USA Canada Brazil and Hong Kong
