Sibling Loss Across the Lifespan Brenda J. Marshall, Howard R. Winokuer, 2016-10-04 Sibling Loss Across the Lifespan brings together researchers, clinicians, and bereaved siblings to explore sibling loss. Unique in both form and content, the book focuses on loss within five key age ranges: childhood, adolescence, emerging adulthood, adulthood, and late adulthood, and losses within a special topics section that addresses areas of interest across multiple age groups. In addition to chapters from researchers and clinicians, the book includes personal stories from bereaved siblings who describe the lived experience of this loss.

**Nursing Assistant Care** Susan Alvare, 2005 Over 6,000 instructors shared their ideas for the perfect nursing assistant textbook. *Nursing Assistant Care* is exactly what you asked for: a full-color, up-to-date, affordable book that meets and exceeds federal and state requirements. Specifically, it contains beautifully illustrated and clearly photographed chapters organized around learning objectives and written at a low reading level; creative methods to teach care and observations; promoting independence; and essential information on preventing abuse and neglect. Chapter-ending material which develops critical thinking and tests the chapter. Illnesses and common conditions in one chapter organized by body system; an entire chapter on confusion, dementia, and Alzheimer's disease; up-to-date CPR and emergency care sections; a full chapter on mental health and mental illness; information on developmental disabilities; personal care skills housed within one chapter; as are nursing skills; separate chapters for bowel and urinary elimination.
