Your Consent Is Not Required Rob Wipond, 2023-01-24 Asylums are supposed to be in the past. However, though the buildings were closed, many of the practices lived on. In fact, more law-abiding Americans today are being involuntarily committed and forcibly treated for their own good than at any time in history. In the first work of investigative journalism in decades to give a comprehensive view into contemporary psychiatric incarceration and forced interventions, *Your Consent Is Not Required* exposes how rising numbers of people from many walks of life are being subjected against their will to surveillance, indefinite detention, and powerful tranquilizing drugs, restraints, seclusion, and electroshock. There is a common misconception that due to asylum closures, only dangerous people get committed now. But forced psychiatric interventions today occur in thousands of public and private hospitals and also in group and long-term care facilities, troubled teen and residential treatment centers, and even in people's own homes under outpatient commitment orders. Intended to help for many people, the experiences are terrifying, traumatizing, and permanently damaging. Driven partly by individuals' genuine concerns for the mental health of others and partly by institutions entangled with goals of power, profit, and social control, psychiatric coercion is increasingly used to manage school children and the elderly, quell family conflicts, police the streets, control people in shelters, community living, and prisons, fraudulently increase hospital profits, resolve workplace disagreements, detain protesters, and discredit whistleblowers. Thoroughly researched with alarming true stories and hard data from the US and Canada, Rob Wipond's *Your Consent Is Not Required* builds an unassailable case for greater transparency, vigilance, and change.
