**Year of the Nurse: A Covid-19 Pandemic Memoir** Cassandra Alexander, 2021-07-19 This book is for anyone nurse or otherwise who is furious about how 2020 went down and how 2021 is going On April 25th 2021 at 10 55 in the morning I messaged my chat group of girlfriends from where I work as a nurse on an ICU floor Nothing like feeling strongly suicidal at a job where you're supposed to be keeping people alive and then tweeted that my mental health wasn't great and deleted the Twitter app off of my phone because I didn't want to overshare That I felt like dying That I would've rather died than still be at work I am not alone In 2020 there were roughly four million nurses in America Only 2.7 million U.S. soldiers fought in the Vietnam War Those who came back from Vietnam having witnessed atrocities and in some cases participated in them were changed forever You can't send four million people into a wartime equivalent situation without psychological consequences And yet that's what America has done Nurses spent a year battling a largely unknown assailant Running low on gear Fearing we might bring something deadly home Getting coughed on by people who pretended that our fights were imaginary that our struggles watching people die day after day no matter what we did were literally fake Nurses are scarred And unless people understand what we went through and commit to never let anyone lie in the future about public health we will never become whole Year of the Nurse A Covid 19 Pandemic Memoir is Cassandra Alexander's poignant effort to come to grips with suicidal ideation and PTSD after being a covid nurse in an ICU in 2020 Comprised of original essays and her chronological journals tweets and emails as she attempted to save lives including her own this book will let you experience last year from the bedside Come and understand what it was like
