Education,2012-01-20 What students need to know to achieve their best scores and get into the nursing school of their choice Access to a download with skill building quizzes in reading math and science 200 000 plus test takers per year Fully updated information on test formats and topic coverage Generic practice tests to help students build reading math and science skills

Fast Facts for the Student Nurse Susan Stabler-Haas,2012-05-17 Print CourseSmart [Review Guide for RN Pre-entrance Exam](#) Mary McDonald,2004 The Review Guide for NLN RN Pre Entrance Exam provides an overview of the math science and verbal content necessary for admission to AD and BS programs in nursing Includes approximately 1000 questions and 3 practice exams in each of the three areas math science and verbal Also includes helpful tips for test preparation and for becoming a more effective learner and test taker [Assessing Competence in Professional Performance across Disciplines and Professions](#) Paul F. Wimmers,Marcia Mentkowski,2016-04-19 This book examines the challenges of cross professional comparisons and proposes new forms of performance assessment to be used in professions education It

addresses how complex issues are learned and assessed across and within different disciplines and professions in order to move the process of performance assessment for learning to the next level In order to be better equipped to cope with increasing complexity change and diversity in professional education and performance assessment administrators and educators will engage in crucial systems thinking The main question discussed by the book is how the required competence in the performance of students can be assessed during their professional education at both undergraduate and graduate levels To answer this question the book identifies unresolved issues and clarifies conceptual elements for performance assessment It reviews the development of constructs that cross disciplines and professions such as critical thinking clinical reasoning and problem solving It discusses what it means to instruct and assess students within their own domain of study and across various roles in multiple contexts but also what it means to instruct and assess students across domains of study in order to judge integration and transfer of learning outcomes Finally the book examines what it takes for administrators and educators to develop competence in assessment such as reliably judging student work in relation to criteria from multiple sources the co editors of this volume Marcia Mentkowski and Paul F Wimmers are associated with two institutions whose characters are so intimately associated with the insight that assessment must be integrated with curriculum and instructional program if it is to become a powerful influence on the educational process Lee Shulman Stanford University

Choosing Students Wayne Camara, Ernest W. Kimmel, 2005-03-23 This volume brings a variety of perspectives to bear on the issue of how higher education institutions can or should choose students during the early part of the 21st century Many of the contributors report on research to develop and validate potential tools to assist those responsible for admission decisions Other contributors however pose broader questions about the nature of selective admissions about institutional responses to the changing demography of those seeking to enter higher education or about the appropriate criteria of success in higher education The volume is particularly timely because the question of how changes in admission tools and processes will affect campus diversity following the recent Supreme Court decision concerning the University of Michigan Diversity is an important concern of all of the contributors and the chapter by Lee Bollinger President at Michigan at the time the court cases were filed is particularly relevant This book brings together the research that underlies a variety of proposed approaches to improving the selection of students Providing support for the integrity of the admissions process and the validity of new tools to help a higher education institution to select a diverse student body this book explores the implications of the assessment component of K 12 school reform for higher education admissions practices The diverse contributions to this volume reflect the current ferment in educational research and educational practice as institutions of higher education seek to develop a new admissions paradigm for coming decades following the University of Michigan decisions This book is intended for those leaders and professionals who set admission policies and practices in American colleges and graduate and professional schools as well as for those scholars and scientists who research develop and validate tools for use in the process of choosing students in ways that are congruent with an institution s mission values and goals
