Co-Creation for Sustainability Christopher Ansell,Eva Sørensen,Jacob Torfing,2022-08-02

The ebook edition of this title is Open Access and freely available to read online Co Creation for Sustainability brings global SDGs to the local level explaining local co creation practices the creation of collaborative platforms and the empowerment of stakeholders to have a positive collective impact [Towards 2030: Sustainable Development Goal 3: Good Health and](#)

[Wellbeing. A Sociological Perspective](#) Sangeeta Chattoo,Chimaraoke Izugbara,Andrzej Klimczuk,Magdalena

Klimczuk-Kochańska,Piotr Toczyski,Ashwani Kumar,Rubal Kanozia,Grzegorz Piotr Gawron,Ahmad Ozair,2025-08-26 Building on the Millennium Development Goals the UN Sustainable Development Goals are the cornerstone of the 2030 Agenda for Sustainable Development billed by the UN as An Agenda of unprecedented scope and significance The seventeen ambitious goals which are intended to be reached by 2030 are conceived as integrated indivisible and as balancing the economic social and environmental dimensions of sustainable development They are organized around five core pillars People ending poverty and hunger and ensuring that all human beings can lead fulfilling lives in a healthy and dignified environment Planet protecting the environment while ensuring sustainable use and management of natural resources Prosperity ensuring environmentally sustainable economic growth mutual prosperity and decent work for all Peace building societies that are peaceful just and inclusive and in which human rights and gender equality are respected Partnership strengthening global solidarity to address inequalities within and between countries by focusing on the needs of the most vulnerable This Research Topic addresses third Sustainable Development Goal which is to ensure healthy lives and promote wellbeing for all at all ages Progress toward this goal is measured by a number of individual targets and indicators As highlighted in the UN s most recent SDG progress report the COVID 19 pandemic has heavily impacted progress toward this goal Prior to the pandemic there had been improvements in maternal child health immunization coverage suicide rates and reductions in the incidence of communicable diseases and mortality rates from non communicable diseases The pandemic threatens to reverse

or stall much of this progress As of June 2021 the global death toll from COVID 19 stood at 3 7 million with manifold wider ramifications of the disease Ninety per cent of countries are still reporting one or more disruptions to essential health services and available data indicates that the pandemic has shortened life expectancy The pandemic has also severely impacted mental health and increased waiting times for elective health services At the same time it has exacerbated inequalities at the national and international levels including access to vaccines In emerging from the pandemic and mitigating its effects the UN has placed emphasis on expanding universal health coverage and multisectoral coordination for health emergency preparedness as well as improving demographic and epidemiological data This Research Topic will address the third Sustainable Development Goal from a sociological specific perspective It will focus on how social stratification geographical location and culture impact communities health but also on groups specific health problems availability understanding and reception of medications and treatment and the functioning of primary health care as a service aiming to influence and inform policymakers on the development of equal public health policies A specific focus will be dedicated to how disparities in gaining access to health care reproduce important social inequalities in wellbeing and quality of life Due to the COVID 19 pandemic unprecedented health economic and social challenges are threatening lives and livelihoods making the attainment of SDGs much more onerous This call invites contributions in the form of studies reviews and opinion articles from the experts to provide sustainable solutions to achieve SDGs This Research Topic welcomes papers that will provide both theoretical and empirical findings Potential issues include but are not limited to Transformations of social determinants of health including lifestyles and environments Health inequalities and interventions towards their reduction Development of demographic and epidemiological data collecting and processing Advances in the fields of health emergency preparedness and access to universal health coverage Good health and wellbeing through access to clean and green agriculture Improving crop productivity on limited land in the era of climate change and COVID 19 pandemic Application of sustainable practices in agriculture and food sectors Public health and health sector innovations during the pandemic and for the post pandemic period Tensions between national and international health policies in response to global health challenges Role of experts in making law and public policies related to the COVID 19 pandemic e g response and recovery plans programs strategies and funds Innovative co design co creation and co production schemes based on diversity of policy ideas in the environmental policy and health policy Disruptions and challenges for integrated public policies and programs on social environmental and health issues related to delivering social health and care services Opportunities criticism and ethical controversies related to digital social innovation e health plant based innovation food innovation AI ICT and 3D solutions social and service robotics smart environments gerontechnology and welfare technology

Diet for a Sustainable Ecosystem Benjamin E. Cuker, 2020-08-10 This book explores a specific ecosystem in depth in order to weave a story built on place and history It incorporates the theme of a journey to help reveal the environment human health food

system problem While drawing on a historical approach stretching back to the American colonial era it also incorporates more contemporary scientific findings By crafting its story around a specific place the book makes it easier for readers to relate to the content and to subsequently use what they learn to better understand the role of food systems at the global scale *Paperbound Books in Print* ,1982 *Backpacker* ,2001-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured
